Independent Auditor's Report

To the Board of Regents Eastern Michigan University

Report on the Financial Statements

We have audited the accompanying financial statements of Eastern Michigan University, a component unit of the State of Michigan (the "University"), and its discretely presented component unit as of and for the years ended June 30, 2013 and 2012 and the related notes to the financial statements, which collectively comprise Eastern Michigan University's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement. The discretely presented component unit was not audited under *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Eastern Michigan University and its discretely presented component unit as of June 30, 2013 and 2012 and the respective changes in financial position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

To the Board of Regents Eastern Michigan University

Emphasis of Matter

As discussed in Note 1 to the basic financial statements, effective July 1, 2012, the University adopted new accounting guidance under Governmental Accounting Standards Board (GASB) Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities. These statements introduce and define those elements as a consumption of net assets by the University that is applicable to a future reporting period and an acquisition of net assets by the University that is applicable to a future reporting period, respectively. The standards also incorporate deferred outflows of resources and deferred inflows of resources, as defined by GASB Concepts Statement No. 4, into the definitions of the required components of the residual measure of net position, formerly net assets. Our opinion is not modified with respect to these matters.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as identified on pages 3 through 12, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The schedules of net position by fund and revenues, expenses, and changes in net position by fund are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2013 on our consideration of the Eastern Michigan University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Plante & Moran, PLLC

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of Eastern Michigan University's ("University") financial statements provides an overview of the University's financial activities for the years ended June 30, 2013, 2012, and 2011. Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with University management.

The University's financial report include three financial statements: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. These statements were prepared in accordance with criteria established by the Governmental Accounting Standards Board (GASB) for determining the various governmental organizations to be included in the reporting entity (GASB Statement No. 61). These criteria include significant operational or financial relationships. Based on the application of the criteria, the University has one component unit -- the Eastern Michigan University Foundation. The Foundation's statements are discretely presented as part of the University's reporting entity in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB).

Eastern Michigan University offers a supportive, accessible, affordable, and quality learning and living environment. The University's distinct mix of comprehensive academic resources, strong community initiatives, focus on education first, and nationally recognized undergraduate research achievements set it apart.

Founded in historic Ypsilanti in 1849, the University occupies 880 acres on the main campus with 122 buildings. In addition, there are six convenient off-campus locations in Brighton, Detroit, Jackson, Livonia, Monroe, and Traverse City for a student body of over 23,000 students.

Financial Highlights

The University's financial position remained strong at June 30, 2013, with assets of \$583 million, liabilities of \$346 million, and deferred inflows of \$18 million.

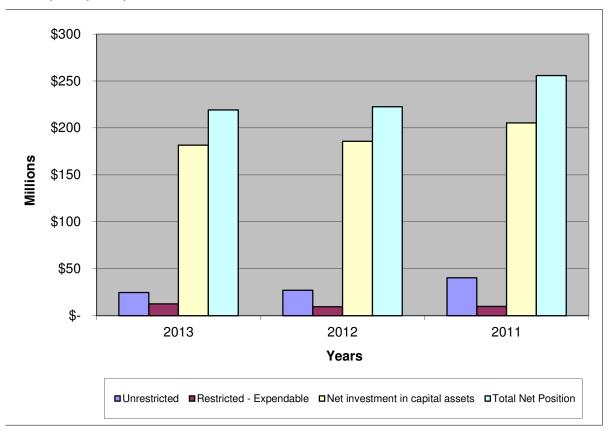

In 2013 the University adopted GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position (GASB 63) retroactive to July 1, 2010. This standard introduces and provides financial reporting guidance for deferred inflows and outflows of resources and defines those elements as consumption of net position by the University that is applicable to a future reporting period, and an acquisition of Net position by the University that is applicable to a future reporting period, respectively. In conjunction with the adoption of GASB 63, the University early-adopted GASB Statement No. 65, Items Previously Reported as Assets and Liabilities. As a result of this adoption, the University had a restatement of \$2.2 million net position as of July 1, 2010 due to the requirement to expense bond issuance costs. Under previous standards, these costs had been capitalized and amortized over the life of the associated debt.

Due to fluctuation in interest rates and the reassignment of interest rate swap agreements to refinanced debt, the fair value of the derivative liability decreased by \$64.2 million in 2013, followed by an increase of \$30.8 million in 2012, and a decrease of \$6.7 million in 2011.

In 2013 the University received the final \$.01 million from a capital outlay allocation for the Pray-Harrold renovation. In 2012 and 2011 the University received \$10.5 million and \$20.98 million, respectively. This was the first State Building Authority funding received since 1996.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following chart provides a graphical breakdown of net position by category for the fiscal years ended June 30, 2013, 2012, and 2011.

The University has committed the unrestricted net position to provide for identified future needs. These needs include contractual obligations, debt service, student loans, capital outlay, insurance reserves, future retirement costs, and academic programming needs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Statements

The University's financial report includes the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector institutions. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Net position is one indicator of the current financial condition of the University and is measured by assets plus deferred outflows minus liabilities and deferred inflows.

Following is a summary of the major components of the net position and operating results of the University for the years ended June 30, 2013, 2012, and 2011 as restated:

Net Position as of June 30 (In millions)	_	2013	-	2012		2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

Operating Revenues

Operating revenues include all transactions that result from the sales and/or receipts of goods and services such as tuition and fees, housing, and other auxiliary units. In addition, certain federal, state and private grants are considered operating if they are a contract for services and not for capital purposes.

Student tuition and fees revenue increased as a result of a Board of Regents approved tuition and mandatory fee weighted average increase of 3.95 percent effective Fall 2012, partially offset by additional scholarships.

The following is a graphic illustration of operating revenues by source:

Operating Revenues by Source

MANAGEMENT'S DISCUSSION AND ANALYSIS

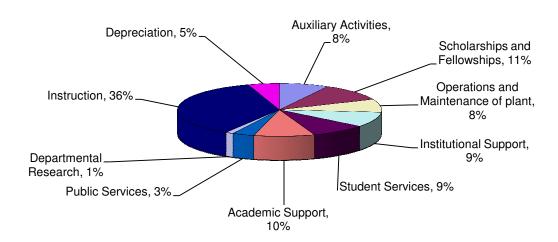

Operating Expenses

Operating expenses are all costs necessary to perform and conduct the programs and primary purposes of the University. Operating expenses were up modestly, reflecting increases in the costs of compensation, utilities, student financial aid, library acquisitions, academic programming, and depreciation.

The University is committed to providing financial support to students. The University has long sponsored its prestigious National Scholars program which attracts some of the brightest and most promising students.

The following is a graphic illustration of operating expenses by source:

Operating Expenses

Nonoperating Revenues

Nonoperating revenues are all revenue sources that are primarily non-exchange in nature. They consist primarily of state appropriations, Pell grant reimbursements, investment income (including realized and unrealized gains and losses), and restricted development funds that do not require any services to be performed. Nonoperating revenue was significantly impacted by the following factors:

MANAGEMENT'S DISCUSSION AND ANALYSIS

- State operating appropriations increased \$1.9 million in 2013 to \$66.5 million and decreased \$11.4 million in 2012 to \$64.6 million due to the State's economy.
- Investment income decreased \$0.3 million to \$2.8 million in 2013 and decreased \$3.6 million to \$3.1 million in 2012 due to market conditions.
- Due to the reassignment of interest rate swaps to the refinanced debt, the derivative instruments are now deemed effective hedging transactions and the change in fair value no longer is recorded in non-operating revenue. The fair value decreased by \$64.2 million in 2013 due to market conditions. In 2012, the fair value of derivative value increased by \$30.8 million due to market conditions.
- Pell grants decreased \$0.2 million to \$34.4 million in 2013 and decreased \$0.7 million to \$34.6 million in 2012.
- In 2011, the University retired \$7.5 million of expired library subscriptions with accumulated depreciation of \$4.1 million purchased between 2003 and 2011.

Other

Other consists of items that are typically nonrecurring, extraordinary, or unusual to the University. Examples would be capital gifts, capital appropriations from the state or federal government, and transfers from related entities. Capital appropriations for the Pray-Harrold renovation amounted to \$0.01 million, \$10.50 million and \$20.98 million in 2013, 2012 and 2011, respectively, for the first State Building Authority capital outlay from the State of Michigan since 1996. Capital gifts amounted to \$0.1 million in 2013, \$1.0 million in 2012, and \$0.4 million in 2011.

Statement of Cash Flows

Another way to assess the financial health of the University is to look at the statement of cash flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of the University during a period. The statement of cash flows also helps users assess:

- The University's ability to generate future net cash flows
- Its ability to meet obligations as they come due
- Its needs for external financing

Cash Flows for the Years Ended June 30 (in millions)

	 2013	2012	2011
Cash Provided by (Used in):			
Operating activities	\$ (92.7) \$	(102.6)	\$ (87.6)
Noncapital financing activities	100.7	102.0	116.6
Capital and related financing activities	(25.5)	(25.4)	(111.6)
Investing activities	20.9	30.2	53.1
Net Increase (Decrease) in Cash	3.4	4.2	(29.5)
Cash - Beginning of year	8.2	4.0	33.5
Cash - End of year	\$ 11.6 \$	8.2	\$ 4.0

MANAGEMENT'S DISCUSSION AND ANALYSIS

Cash and Investments

Cash and investments, collectively, decreased by \$10.4 million to \$52.1 million as of June 30, 2013 primarily due to spending bond proceeds on capital projects.

The most significant components of cash flows provided from operating activities are tuition and fees, auxiliary activities, grants, and contracts. Net cash used in operating activities was \$92.7 million. To offset this, the net cash provided from non-capital financing activities, which consisted primarily of State appropriations, was \$100.7 million. This is compared to net cash used in operating activities in the amount of \$102.0 million and \$87.6 million for the years ended June 30, 2012 and 2011, respectively. Net cash provided by non-capital financing activities was \$102.0 million and \$116.6 million for the years ended June 30, 2012 and 2011, respectively.

Cash used by capital and related financing activities amounted to \$25.5 million in 2013, \$25.4 million in 2012, and \$111.6 million in 2011, primarily on capital additions.

Capital Assets

At June 30, 2013, the University had \$465.1 million invested in capital assets, net of accumulated depreciation of \$302.7 million. Depreciation charges totaled \$16.5 million for 2013 compared to \$14.0 million in 2012. In 2013, the University completed part of the Rackham renovation and other projects to improve classrooms, residence halls, technology infrastructure, athletics, building energy efficiency, and security. Capital projects in progress at June 30, 2013 primarily include additional work on Rackham, Information Technology infrastructure replacements, renovation of the Best residence hall, and improvements to the Halle ventilation system.

At June 30, 2012, the University had \$460.9 million invested in capital assets, net of accumulated depreciation of \$287.5 million. Depreciation charges totaled \$14.0 million for 2012 compared to \$15.8 million in 2011. In 2012, the University completed the Science Complex and Pray-Harrold renovations and projects to improve auxiliary building energy efficiency, security, and classrooms. Capital projects in progress at June 30, 2012 primarily include the Rackham renovation, Information Technology infrastructure replacements, and improvements to the Hoyt residence hall.

Debt and Derivatives

On November 30, 2012, the University issued \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2012A, and \$60,795,000 of General Revenue Variable Rate Demand Revenue and Refunding Bonds, Series 20012B. These bonds refunded \$125,795,000 General Revenue Variable Rate Demand Refunding Bonds, Series 2009A&B, redeemed \$1,685,000 Series 2000 Bonds, redeemed \$250,000 Series 2002B Bonds, and provided \$7,885,500 for capital projects.

At June 30, 2013, the University had \$239.7 million in obligations outstanding, versus \$234.1 million in 2012 and \$237.4 million in 2011. All of the outstanding debt instruments are general revenue obligations of the University. Principal payments of \$2.7 million, \$3.2 million and \$3.6 million were made in 2013, 2012 and 2011, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Included in the outstanding obligations are three interest rate swap agreements with notional amounts of \$127.1 million, \$126.9 million, and \$125.8 million as of June 30, 2013, 2012 and 2011, respectively. In 2013 the swaps were transferred to the Series 2012A and 2012B bonds. Under GASB Statement Number 53, this created a synthetic termination event for the old swap agreements. The new bonds allow the swaps to be reconsidered for hedge accounting, and they were all deemed to be effective hybrid instruments as of June 30, 2013. As a result, the University has posted a \$17.7 million fair value asset, a current liability of \$2.7 million, a noncurrent liability of \$41.0 million, and a deferred inflow of \$17.7 million as of June 30, 2013. Conversely in 2012 the swaps were deemed to be ineffective hedges and the fair value liability was \$46,521,031.

The terms of the swap agreements call for the University to post collateral to the counterparty under certain conditions tied to the prevailing rating of the University and the mark to market valuations of the swaps. The University posted collateral of \$5 million to the counterparty as of June 30, 2012. The collateral is reflected in long-term restricted investments. No collateral was required to be posted as of June 30, 2013 and 2011, respectively.

For the University's \$125,795,000 of enhanced variable rate debt refinanced in 2009, the credit ratings assigned by Moody's Investor Services (Aaa/VMIG-1) were unchanged in 2013 from 2012 and 2011. Standard and Poor's ratings (AAA/A-1) were unchanged in 2013 from 2012 and 2011. For the University's \$102,380,000 of fixed rate debt, separate ratings were assigned by each agency for the insured portion of the debt and the uninsured portion. Moody's ratings were Aa2 (insured) and A1 (uninsured); Standard and Poor's ratings were AAA/A-1 (insured) and BBB+ (uninsured). Standard and Poors issued their uninsured BBB+ rating, down from A-, on September 10, 2013. The highest achievable ratings are "Aaa" and "AAA", respectively. The University's capacity to meet its financial obligations is considered to be strong by the rating agency and reflects limited additional borrowing capacity as of June 30, 2013.

Deferred Outflows

The University had \$17.7 million of deferred inflows from interest rate swaps and \$0 deferred outflows at June 30, 2013. As of June 30, 2012 and 2011 the University had \$0 deferred inflows and outflows.

Funding for a Successful Future

Eastern Michigan University's focus remains on investing in its students and faculty, in academic quality, and in maintaining and improving facilities that help educate students. Through diligent efforts at fiscal stewardship and cost containment, the University has set a standard for tuition restraint in recent years while still continuing to invest in facilities and programs that help EMU students succeed in today's economy.

For the fifth consecutive year, the University's Board of Regents has maintained its statewide leadership role in restraining higher education costs for Michigan students and their families.

The University's Board of Regents approved a tuition and mandatory fee increase of 3.75 percent for fall 2013 as part of the 2014 fiscal year budget. The increase matches this year's state tuition restraint threshold, set earlier this spring by the Michigan legislature for the state's 15 public universities. By setting its tuition at this rate, the University qualifies for additional state performance funding related to tuition restraint. Eastern now has the lowest dollar increase in tuition over the last five years of any of the

MANAGEMENT'S DISCUSSION AND ANALYSIS

15 public universities in the state. The University's tuition increases have averaged 3 percent over that time frame.

The University's \$296.4 million General Fund budget for fiscal 2014 reflects a \$3.8 million increase in University-sponsored financial aid. Over the last six years, the University's financial aid has grown by more than 80 percent, from \$21.4 million in 2007-08 to \$39.2 million in 2013-14. The trend further underscores the University's commitment to helping students and their families cope with the increasing costs of attending college. The budget also reflects \$2.2 million in funding for new academic programs and Strategic Plan initiatives, such as support for the University's new Physician Assistant Program, which is planned for launch in May 2014.

The Board of Regents also approved an auxiliary activities operating budget of \$44.4 million. The budget includes revenues and expenditures associated with EMU's dining services, residence halls, apartments and parking.

The auxiliary activities budget reflects increased housing occupancy for fall 2013. It is expected that the number of students living on campus this fall in residence halls and University-owned apartments will increase for the third consecutive year. This fall, 650 more students, an increase of 20 percent, will be living on campus than in the fall of 2010.

Yet, even during this period of tuition restraint, the University has undergone an unprecedented period of capital reinvestment in its academic and student-centered facilities. The University's \$220 million, five-year capital plan included last fall's completion of Phase II of the \$90-million, self-funded Science Complex. The capital improvement program has included academic facility enhancements, such as the renovation of the Pray-Harrold Building; housing and dining renovations and improvements in campus safety and security, IT infrastructure, classroom technology and athletic facilities.

Eastern Michigan University's successful future depends on the collective efforts of its stakeholders. These efforts build on a solid foundation of exceptional academic programs that prepare students for real-world experience.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies

Organization - The University is an institution of higher education located in Ypsilanti, Michigan, and is considered to be a component unit of the State of Michigan (the "State") because its Board of Regents is appointed by the governor of the state of Michigan. Accordingly, the University is included in the State's financial statements as a discrete component unit. Transactions with the State of Michigan relate primarily to appropriations for operations, grants from various state agencies, and payments to state retirement programs for the benefit of University employees.

Basis of Presentation

The financial statements of Eastern Michigan University (the "University") have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The University implemented GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. The objective of this statement is to incorporate into the GASB's authoritative literature certain accounting and financial guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting research bulletins of the American Institute of Certified Public Accountants (AICPA), Committee or Accounting Procedure.

The University follows the "business-type" activities reporting requirements of GASB Statement No. 34. GASB 34 establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following categories:

- Net Investment in Capital Assets Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement in those assets.
- **Restricted, expendable** Net position subject to externally imposed constraints that can be fulfilled by actions of the University pursuant to those constraints or that expire by the passage of time.
- Unrestricted Net position not subject to externally imposed constraints. Unrestricted Net position may be designated for specific purposes by action of management or the Board of Regents (the "Board") or may otherwise be limited by contractual agreements with outside parties. The University has committed the unrestricted Net position to provide for identified future needs, such as debt service, contractual obligations, capital outlay, academic programming, and postemployment benefits.

These statements have also been prepared in accordance with criteria established by GASB for determining the various governmental organizations to be included in the reporting entity (GASB Statement No. 61, *Financial Reporting Entity: Omnibus*). These criteria include significant operational or financial relationships with the University. Based on application of the criteria, the University has one component unit.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Component Units of the University - The Eastern Michigan University Foundation financial statements are discretely presented as part of the University's reporting entity. These statements are prepared in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB). The officers of Eastern Michigan University Foundation include certain University administrative officials and the University has controlling interest in the Foundation's board. The Internal Revenue Service has determined that the Foundation is tax exempt under Section 501(c)(3) of the Internal Revenue Code.

The Eastern Michigan University Foundation exists for the sole purpose of soliciting, collecting, and investing donations for the benefit of Eastern Michigan University. Total net assets for the Foundation were \$59,946,927, \$53,959,168 and \$52,756,882 for the years ended June 30, 2013, 2012 and 2011, respectively. No modifications have been made to the Foundation financial statements included in the University's financial report. A complete copy of the audited financial statements of Eastern Michigan University Foundation is available at the Foundation offices located near the campus of the University.

Summary of Significant Accounting Policies

Cash and Investments - As a matter of cash management, the University invests substantially all of its cash in interest-bearing instruments. Investments are reported at fair value, based on quoted market prices, with changes in fair value reported as investment income in the statement of revenue, expenses, and changes in Net position. Cash equivalents consist of highly liquid investments with an original maturity of three months or less.

Inventories - Inventories consist primarily of supplies, food, pharmaceuticals, and bookstore items, and are stated at the lower of cost or market, with cost determined by the retail method.

Capital Assets - Capital assets are stated at cost if purchased or at appraised value at the date of the gift for donated property. Certain net assets have been designated to provide for significant repair and maintenance costs to residence facilities. Physical properties, with the exception of land, are depreciated on the straight-line method over the estimated useful service lives of the respective assets. Estimated service lives are as follows:

Land Improvements	12 to 60 years
Leasehold improvements	12 to 20 years
Buildings	40 to 60 years
Equipment	5 to 10 years
Library holdings	5 to 10 years

Unearned Fees and Deposits - Unearned fees and deposits primarily include unearned tuition and fee revenue for future semesters, exclusivity contract unearned revenue, and agency balances held in custody for others. Retirement benefit costs are funded as accrued.

Interest Rate Swaps – The fair value of interest rate swaps deemed liabilities as of the date of termination of the related debt have been recorded as a liability that is being amortized over the life of the swap contracts using the effective interest method. Amortization for the year ended June 30, 2013 was \$1,565,612 and is recorded as a reduction to interest expense.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Accrued Compensated Absences - Accrued compensated absences are comprised of the portion of unused sick leave accrued as of June 30 but not expected to be paid within one year. The portion of sick leave expected to be paid within one year and all accrued vacation leave are included in accrued payroll, taxes, and fringe benefits. In 2013 the University modified the sick leave and short-term disability policy to eliminate sick leave accruals and retirement payouts for certain employees. In addition, the revised policy established a new short-term disability plan to provide income protection for certain employees unable to work for an extended period because of non-work-related illness or period of incapacity. The current portions of accrued sick leave and vacation leave were approximately \$400,000 and \$3,374,000 as of June 30, 2013, respectively. The current portions of accrued sick leave and vacation leave were approximately \$400,000 and \$3,468,000 as of June 30, 2012, respectively.

Change in Accounting Principles - Effective with the fiscal year ended June 30, 2013, the University adopted the following GASB Statements:

- Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net position. This standard renames "net assets" as "net position" and provides financial reporting guidance for deferred inflows and outflows of resources and defines those elements as consumption of net position by the University that is applicable to a future reporting period, and an acquisition of net position by the University that is applicable to a future reporting period, respectively. The University had \$17.7 million of deferred inflows and \$0 outflows as of June 30, 2013. In 2012 and 2011 the University had no deferred inflows or outflows.
- Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Statement No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows and inflows of resources, certain items that were previously reported as assets and liabilities. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources. The University has no assets or liabilities that would be considered deferred inflows or outflows as of June 30, 2013 and 2012.

Restatement due to Accounting Change - The Governmental Accounting Standards Board (GASB) issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*, in March 2012. Statement No. 65 established accounting and financial reporting standards that reclassify, as deferred outflows and inflows of resources, certain items that were previously reported as assets and liabilities. The University has implemented GASB 65 effective for the year ended June 30, 2013. The statement was retroactively applied to the earliest year presented. No reclassifications to deferred outflows or inflows of resources were necessary for the years ended June 30, 2013, 2012, or 2011, respectively. This Statement also provides other financial reporting guidance related to the impact of the deferred outflow and inflow of resources. The University is required to expense bond issuance costs previously capitalized. As a result, the University has restated beginning net position and noncurrent assets as of July 1, 2010 by (\$2,241,378).

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Reclassifications – Certain prior year balances have been reclassified to conform with the current year presentation. Approximately \$1.9 million and \$2.1 million of Academic Service expenses were moved from Instruction to Academic Support for the years ending June 30, 2012 and 2011, respectively.

Use of estimates - The preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Auxiliary Activities - Auxiliary activities consist of the following as of June 30, 2013 and 2012:

	2013	2012
Operating Revenues:		
Auxiliary Activities, Gross	\$ 42,844,406	\$ 40,688,121
Less: Internal Sales	(370,829)	(353,222)
Less: Scholarship Allowances	(6,129,898)	(5,001,544)
Auxiliary Activities Revenue - Net	\$ 36,343,679	\$ 35,333,355
Operating Expenses:		
Auxiliary Activities, Gross	\$ 32,472,944	\$ 33,577,634
Less: Internal Sales	(370,829)	(353,222)
Less: Scholarship Allowances	(6,129,898)	(5,001,544)
Auxiliary Activities Expenses - Net	\$ 25,972,217	\$ 28,222,868

Operating and Nonoperating Revenues - The University's policy for defining operating activities as reported on the statement of revenues, expenses, and changes in net position is to report those activities that generally result from exchange transactions, such as payments received for providing services and payments made for services or goods received. Nearly all the University's expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues as defined by GASB Statement No. 34, including state appropriations and investment income. Restricted and unrestricted resources are spent and tracked at the discretion of the University's department within the guidelines of donor restrictions, if any. Federal Pell grant revenue is classified as nonoperating due to its nonexchange nature. The amounts received for 2013, 2012, and 2011 are \$34.4 million, \$34.6 million, and \$35.3 million, respectively.

Note 2 - Cash and Investments

The University utilizes the pooled cash method of accounting for substantially all of its cash and cash equivalents. The University's investment policy, as set forth by the Board of Regents, authorizes investment in securities of the U.S. Treasury and agencies, corporate bonds and notes, commercial paper, time savings deposits, Eurodollars and certain external mutual funds, separate managed funds and other pooled funds. Restricted cash and investments represent unspent bond proceeds utilized for capital projects.

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

Interest Rate Risk - As a means of limiting its exposure to fair value losses due to rising interest rates, the University's operating investment policy provides for a diversified portfolio comprised of short, intermediate, and long-term investments. The investment policy does not specifically limit or restrict asset allocation except for the long-term investment pool. The asset allocation, as a percentage of the total market value of the long-term investment pool, is targeted as follows:

Asset Category	<u>Target</u>
Fixed Income Securities	70%
Domestic Large Cap equities	15%
Domestic Mid Cap equities	7%
Domestic Small Cap equities	4%
Global/International equities	4%

The University is also exposed to risk indirectly since its mutual fund investees hold investments such as futures, options, and collateralized mortgage obligations (generally referred to as "derivatives"). This risk is minimal.

Credit Risk - Investment policies for cash and investments as set forth by the Board of Regents shall be to preserve investment principal while deriving a reasonable return consistent with the prevailing market and economic conditions. The University is not currently restricted to a minimum rating by Moody's Investor Service or equivalent rating. At June 30, 2013 and 2012, the University's debt instruments (subject to fluctuations in interest rates) and related ratings consisted of the following:

	2013			2012	
Mar	ket Value	NRSRO Rating	Mar	ket Value	NRSRO Rating
\$	25,394,087	AA	\$	30,438,297	AA
	77,951			81,458	
\$	25,472,038		\$	30,519,755	
		Market Value \$ 25,394,087 77,951	Market Value NRSRO Rating \$ 25,394,087 77,951 AA	Market Value NRSRO Rating Market Market \$ 25,394,087 AA \$ 77,951	Market Value NRSRO Rating Market Value \$ 25,394,087 77,951 AA \$ 30,438,297 81,458

The nationally recognized statistical rating organizations (NRSRO) utilized were Moody's Investors Services or Morningstar. The corporate bonds NRSRO rating is based on a weighted average of the individual investment ratings.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the University will not be able to recover the value of its deposits or investments that are in the possession of an outside party. The University's cash investment policy does not limit the value of deposits or investments that may be held by an outside party. Investments in external investment pools and in open-ended mutual funds are not exposed to custodial credit risks because their existence is not evidenced by securities that exist in physical or book entry form. All cash and cash equivalents are held in the University's name as of June 30, 2013 and 2012. As of June 30, 2013, the banks reported balances in the disbursement accounts at \$11,086,955. Of these balances, \$500,000 was covered by federal depository insurance and \$10,586,955 was uninsured and uncollateralized. As of June 30, 2012, the

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

banks reported balances in the disbursement accounts at \$8,228,042. Of these balances, \$500,058 was covered by federal depository insurance and \$7,727,984 was uninsured and uncollateralized.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The University's investment policy provides that investments will be diversified within equity and fixed income securities so as to provide a balance that will enhance total return while avoiding undue risk concentrations in any single asset class or investment category. The diversification does not necessarily depend upon the number of industries or companies in a portfolio or their particular location, but rather upon the broad nature of such investments and of the factors that may influence them.

The following investments comprise more than 5% of the total investments portfolio as of June 30, 2013 and 2012:

June 30, 2013	:
---------------	---

<u>Instrument</u>	Fair Market Value			
JPMorgan Core Bond Select	\$	3,857,806		
PIMCO Total Return Bond Fund		14,083,550

Total	\$	31,614,614		

<u>J</u>	une	30,	20	<u>112</u>

<u>Instrument</u>	Fair Market Value			
JPMorgan Core Bond Select	\$	4,599,304		
PIMCO Total Return Bond Fund		18,075,918		
Loomis Sales Bond Fund Instl		4,623,427		
Barclay's Capital		5,000,000		
Vanguard Inst Index VINIX		8,551,855		
Total	\$	40,850,504		

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. At June 30, 2013 and 2012, the University had \$1,728,517 and \$2,065,174, respectively, invested in mutual funds that have funds invested in various countries throughout the world and therefore, exposes the University to foreign currency risk indirectly. The University did not have any direct investments or deposits denominated in foreign currencies at June 30, 2013 and 2012.

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

Investments at the Eastern Michigan University Foundation are as follows:

	2013	2012
Corporate stocks	\$ 40,443,282	\$ 33,561,915
Corporate bonds	3,786,769	3,920,207
Treasury/Federal securities	4,705,569	4,704,404
Certificates of Deposit (Long Term)	573,546	603,018
Real estate	55,000	55,000
Mutual funds	6,821,018	6,268,639
Total	\$ 56,385,184	\$ 49,113,183

Net gains/losses from security transactions for the years ended June 30, 2013 and 2012 are as follows:

	2013	2012
Unrealized gain (loss)	\$ 3,865,645	\$ (2,038,265)
Realized income	3,575,412	1,783,266
Total	\$ 7,441,057	\$ (254,999)

Trustee and brokerage fees associated with the maintenance of the endowment securities portfolio were \$333,517 and \$405,760 for the years ended June 30, 2013 and 2012, respectively, for Eastern Michigan University Foundation. For recording purposes, these fees have been netted with investment income.

NOTES TO THE FINANCIAL STATEMENTS

Note 3 - Receivables

University accounts receivable consist of the following as of June 30, 2013 and 2012:

	2013	2012
Sponsor accounts	\$ 4,365,630	\$ 3,571,815
Student accounts	6,751,478	6,531,595
Charter school appropriation	4,544,112	4,072,428
Third party tuition	535,384	660,228
Other	6,716,227	5,354,594
Subtotal	22,912,831	20,190,660
Less allowances for possible collection losses	(1,512,394)	(1,477,898)
Accounts receivable - Net	\$ 21,400,437	\$ 18,712,762

In addition, the University has student loans receivable of \$10,230,657 and \$11,157,010, net of the related allowance of \$358,666 for both June 30, 2013 and 2012.

Included in contributions receivable for the Foundation are the following unconditional promises to give at June 30, 2013 and 2012:

	 2013	 2012
Contributions receivable:	 _	 _
Gross contributions promised	\$ 1,453,745	\$ 1,655,121
Less allowance for uncollectibles	 (939,461)	 (740,365)

The University has encumbrances of \$3,994,967 on various construction projects in progress as of June 30, 2013.

Certain University facilities, including the Bruce T. Halle Library, John W. Porter College of Education, Boone Hall, Everett L. Marshall College of Health and Human Services Building, the William H. Smart Physical Plant, the Student Center, and the Pray-Harrold Building have been financed in whole or in part by State Building Authority ("SBA") bond issues which are secured by a pledge of rentals to be received from the State of Michigan pursuant to lease agreements between the SBA, the State of Michigan, and the University. During the lease terms, the SBA will hold title to the respective buildings, the State of Michigan will make all lease payments to the SBA, and the University will pay all operating and maintenance costs. At the expiration of the individual leases, the SBA has agreed to sell each building to the University for one dollar.

On November 30, 2012, the University issued \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2012A, and \$60,795,000 of General Revenue Variable Rate Demand Revenue and Refunding Bonds, Series 20012B. These bonds refunded \$125,795,000 General Revenue Variable Rate Demand Refunding Bonds, Series 2009A&B, redeemed \$1,685,000 Series 2000 Bonds, redeemed \$250,000 Series 2002B Bonds, and provided \$7,885,500 for capital projects. 2012 Series A&B bonds amortize over 37 years with principal payments beginning June 30, 2038 and June 30, 2037, respectively. The refunding resulted in a reduction of total interest payments of \$53.9 million and an economic gain (difference between the present values of the interest payments on the old and new debt) of \$3,119,479.

On May 5, 2009, the University issued \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2009A, and \$50,795,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2009B. These bonds refunded \$125,795,000 General Revenue Variable Rate Demand Refunding Bonds, Series 2008. 2009 Series A&B bonds were refunded on November 30, 2012.

NOTES TO THE FINANCIAL STATEMENTS

Note 5 - Long-term Debt (continued)

On June 10, 2009, the University issued \$102,380,000 of General Revenue Bonds, Series 2009C and 2009D, to fund capital projects. Series 2009C for \$23,160,000 are tax-exempt bonds. Series 2009D for \$79,220,000 are taxable issuer Build America Bonds authorized by Section 1531 of the American Recovery and Reinvestment Act of 2009. The University will receive payments from the Federal Treasury equal to 29.9% of the total coupon interest paid by the University.

As bonds are defeased, certain funds that will be paid to bondholders are deposited in trust and distributions are made by the trustee accordingly. The trust account assets and the liability for the defeased bonds are not recorded as assets or liabilities in the financial statements of the University. At June 30, 2013 and 2012, the aggregate amount of outstanding principal on all bonds which have been defeased is \$70,000 and \$36,192,250, respectively.

Certain debt agreements require student fees to equal or exceed 200% of the related debt service. The University is in compliance with these covenants.

Principal and interest on long-term debt are payable from operating revenues, allocated student fees and the excess of revenues over expenditures of specific auxiliary activities. The obligations are generally callable. The future amounts of principal and interest payments required by the debt agreements are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	2,330,000	12,364,006	14,694,006
2015	2,475,000	12,211,094	14,686,094
2016	2,560,000	12,074,243	14,634,243
2017	2,660,000	11,878,886	14,538,886
2018	2,775,000	11,681,630	14,456,630

NOTES TO THE FINANCIAL STATEMENTS

Note 5 - Long-term Debt (continued)

Interest Rate Swaps:

The University currently holds three interest rate swap instruments. The University entered into three of the agreements at the same time and for the same amount as the issuance of certain variable rate debt with the intent of creating a synthetic fixed rate debt, at an interest rate that is lower than if fixed rate debt were to have been issued directly. The University entered into a single mini-swap while refunding \$125,795,000 in variable rate debt for a notional amount of \$2,490,000 to replace, over time, the amortizing notional amounts of the 2001 swap and the 2006 swap. The intention of the 2009 swap was to retain an effective synthetic fixed rate for the 2009A and 2009B bonds. The 2001 swap, the 2006 swap, and the 2009 swap were reallocated by the University to the 2012A and 2012B bonds.

Interest rate swaps are classified as hedging derivative instruments, if the hedging instruments meet the criteria outlined in GASB 53, paragraph 27a and b, or as investment derivative instruments if they do not meet the criteria. Based on regression analysis, all of the swap agreements have been determined to be effective hedging derivative instruments as of June 30, 2013. Regression analysis evaluated effectiveness by considering the statistical relationship between the cash flows or fair values of the potential hedging derivative instrument and the hedgeable item. The changes in cash flows or fair values of the potential hedging derivative instrument substantially offset the changes in cash flows or fair values of the hedgeable item when certain criteria were met. All of the University's hedging relationships in fiscal year 2012 were terminated in fiscal year 2013 and designed into new hedging relationships. In accordance with GASB 53 these swaps are considered hybrid instruments consisting of a financing element and an embedded derivative.

In contrast, all of the swap agreements were deemed ineffective hedges at June 30, 2012. The ineffective swap agreements did not utilize consistent critical terms as the underlying variable rate debt and a calculation of the actual cash flows demonstrates a difference from fixed rate cash flows.

As of June 30, 2013 and 2012, the swap agreements can be summarized as follows:

	Derivative instrum deferred inflows at):	Fair Value of d at June 30:	erivative i	Outstanding Notional Amount at June 30:		
Cash flow hedges: Pay	2013	\$	17,692,686	201	3 \$	17,682,686	\$ 125,235,000
fixed interest rate swap (receive variable)	2012	\$	-	201	2 \$	(46,521,031)	\$ 126,855,000

In 2012 due to the swaps being considered ineffective hedges, the change in fair value annually was recorded as a component of nonoperating revenue in the statement of revenues, expenses and changes in net position. The fair values of the interest rate swaps were estimated on midmarket values and did not include bid/offer spread that would be reflected in an actual price quotation. Such mid-market values attempted to approximate the current economic value of a given position using prices and rates at the average of the estimated bid and offer for respective underlying asset(s) or reference rate(s) and/or mathematical models, as we have deemed appropriate. In absence of sufficient or meaningful market information available to us, such valuations, or the components thereof, may be theoretical in whole or in part. Discussions of the trade values in general, and indicative or firm price quotations and actual trade prices in particular, may vary significantly from these written estimated values as a result of various

NOTES TO THE FINANCIAL STATEMENTS

Note 5 - Long-term Debt (continued)

factors, which may include (but not limited to) prevailing credit spreads, market liquidity, position size, transaction and financing costs.

6/2/2009	variable	Series 2009	\$7,170,000	3.096%	68% LIBOR	\$16,842,000	<u>\$10,293,886</u>	3/1/2049	Poor's)
					Total	\$43,652,243	\$17,692,686		
			Less Current In	nterest Rate	Swaps	2,688,527			
			Noncurrent Int	erest Rate	Swaps	\$40,963,716			

The terms of the swap contracts call for the University to post collateral to the counterparty under certain conditions tied to the prevailing rating of the University and the mark to market valuations of the swaps. As of June 30, 2012 the University posted collateral of \$5 million to the counterparty. No collateral was required to be posted as of June 30, 2013 and 2011, respectively.

<u>Credit Risk</u> The University is not exposed to credit risk on the hedging derivative instruments because they are in a liability position.

<u>Interest Rate Risk</u> The University is exposed to interest rate risk on its interest rate swaps. On its pay-fixed, receive-variable interest rate swaps, as LIBOR swaps decrease, the University's net payment on the swaps increases.

<u>Basis Risk</u> The University is exposed to basis risk on its LIBOR-based swaps due to variable-rate payments received by the University on these instruments based on a rate of index other than interest rates the University pays on its variable-rate debt, which is remarketed every 30 days. In December 2012, the University amended a portion of the 2001 fixed payer swap by changing the received rate from Securities Industry and Financial Markets Association (SIFMA) to a percentage of LIBOR. This amendment effectively decreased the swap fixed pay leg from 4.72% to 4.465%. Additionally, this mitigates basis risk between the swap receiving leg and the variable rate resets of the 2012A and 2012B bonds. Since the 2001, 2006, and 2009 swap agreements receive a percentage of LIBOR from the counterparty and pay a percentage of LIBOR for the Series 2012A and 2012B bonds, basis risk is mitigated. As of June 30, 2013, the variable interest rate was 0.14%, whereas 68 percent of one-month LIBOR was 0.13%. As of June 30, 2013, 62 percent of one-month LIBOR plus 20 basis points was 0.321%.

<u>Termination Risk</u> The University may terminate a derivative instrument on any business day and terminate and cash settle the instrument by providing prior written notice to the counterparty. Additional termination events will apply if either party fails to maintain the appropriate long-term senior debt credit

NOTES TO THE FINANCIAL STATEMENTS

Note 5 - Long-term Debt (continued)

ratings; or if the University fails to post collateral in accordance with the terms and conditions set forth in the ISDA Credit Support Annex.

Using rates as of June 30, 2013, debt service requirements of the variable rate debt associated with the 2001 swap agreement, 2006 swap agreement, and the 2009 swap agreement and net swap payments, assuming current interest rates remain the same for term, were as follows. As rates vary, variable rate bond interest payments and net swap payments will vary.

Variable Rate Bonds Associated with 2012 Bonds Swap Agreement

Fiscal Year	Prin	cipal	Fix	ed Interest Paid	Variable erest Paid	t Counterparty erest Exchanged	-	Fotal Paid

Note 6 - Retirement Benefits

Through December 31, 1995, the University offered participation in one of two retirement plans for all qualified employees: the Michigan Public School Employees' Retirement System ("MPSERS") and the Teachers Insurance and Annuities Association - College Retirement Equities Fund ("TIAA-CREF"). As of January 1, 1996, the University no longer offered participation in MPSERS to new employees due to the Michigan Public Act 272 of 1995 which enabled the University to withdraw from MPSERS.

MPSERS is a cost-sharing, multiple-employer noncontributory defined benefit retirement plan through the Michigan State Employees' Retirement System. The University's costs for the MPSERS plan include 1) contributions based on member payroll to fund normal pension costs, 2) contributions to fund a portion of the plan's unfunded actuarial accrued liability, and 3) contributions for retiree health insurance, at a fixed dollar amount determined annually by MPSERS.

MPSERS contribution rates are determined by the retirement plan's actuaries as a percentage University member and non-member payroll. Contribution rates were 13.41%, 13.41% and 9.73% for the years ended June 30, 2013, 2012, and 2011, respectively. Covered payrolls were \$12,633,000, \$13,449,000 and \$15,032,000 for the years ended June 30, 2013, 2012, and 2011, respectively. The cost of the MPSERS plan allocated to the University, all of which was contributed in the applicable year, was approximately \$6,529,000, \$6,655,000, and \$6,128,000 for the years ended June 30, 2013, 2012, and 2011, respectively.

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Retirement Benefits (continued)

Further pension data audited by the Office of the Auditor General of the State of Michigan, for the Michigan State Employees' Retirement System is included in the State of Michigan's Comprehensive Annual Financial Report.

TIAA-CREF is a defined contribution retirement plan. Substantially all full-time employees of the University are eligible to participate in the TIAA-CREF plan. Employee benefits generally vest immediately. The University contributes a specified percentage of employee wages, as defined by the appropriate labor contract. Average contribution rates were 11.2%, 10.6%, and 10.6% for the years ended June 30, 2013, 2012, and 2011, respectively. Total covered payroll was \$123,274,000, \$123,544,000, and \$123,153,000 for the years ended June 30, 2013, 2012, and 2011, respectively. The University contributed approximately \$13,740,000, \$13,132,000, and \$12,480,000 for the years ended June 30, 2013, 2012, and 2011, respectively. The University has no liability beyond its own contribution under the TIAA-CREF plan.

The University provides termination benefits upon retirement resulting from unused sick days. The University calculates its sick pay liability in accordance with the provisions of GASB Statement No.16, *Accounting for Compensated Absences*. In 2013 the University modified the sick leave and short-term disability policy to eliminate sick leave accruals and retirement payouts for certain employees. In addition, the revised policy established a new short-term disability plan to provide income protection for certain employees unable to work for an extended period because of non-work-related illness or period of incapacity. The liability is approximately \$2,849,000 and \$4,616,000 as of June 30, 2013 and 2012, respectively. Approximately \$400,000 is included in accrued payroll, taxes, and fringe benefits for the years ended June 30, 2013 and 2012. The remaining portion is included in accrued compensated absences.

Other Postemployment Benefits

The University has a single-employer plan that provides certain healthcare (medical, dental, and prescription drug coverage) and life insurance benefits for retired faculty and staff. The plan covers 1,313 members as of July 1, 2012 for healthcare, 892 members for life insurance, and currently does not require active members to contribute to the plan.

Plan Description - Substantially all of the University's employees may become eligible for certain healthcare benefits if they reach retirement age while working for the University, are vested in a University-sponsored retirement plan, and their years of University service and age total a minimum of 70 - age 55 + 15 years of service or age 60 + 10 years of service. Eligibility for life insurance benefits are vested in a University-sponsored plan when of service and age total a minimum of 70 - age 55 + 15 years of service or age 60 + 10 years of service for certain employees or 60 - age 50 + 10 years of service for other employees.

Funding Policy - The plan requirements are established and may be amended by the University's management.

Annual OPEB Cost and Net OPEB Obligation - The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Retirement Benefits (continued)

represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's OPEB obligation:

	 2013	 2012	2011
Annual required contribution	\$ 186,000	\$ 88,000	\$ 88,000
Interest on net OPEB obligation	-	-	-
Amortization of unfunded actuarial accrued liability	 718,000	-	
Annual OPEB cost	904,000	88,000	88,000
Contributions made	 (440,000)	-	-
Increase in net OPEB obligations	464,000	88,000	88,000
Net OPEB obligation - Beginning of year	440,000	352,000	264,000
Net OPEB obligation - End of year	\$ 904,000	\$ 440,000	\$ 352,000

Funded Status and Funding Progress - As of July 1, 2012, the most recent actuarial valuation date, the plan was 0 percent funded. The actuarial accrued liability for benefits was \$9,382,000, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,382,000. The covered payroll (annual payroll of active employees covered by the plan) was \$98,403,000 for 2012 and the ratio of all UAAL to covered payroll was 9.5 percent for 2012. Prior to July 1, 2012, the University funded the plan at \$88,000 per year under the alternative funding method.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2012 actuarial valuation, the entry age actuarial method was used. The actuarial assumptions included a 6.5 percent investment rate of return (net of administrative expenses) based on the expected long-term investment returns on the University's own investments and a salary inflation rate of 2%. The UAAL is being amortized as a projected unit credit level dollar, closed on a 30-year basis. The remaining amortization period at June 30, 2013 was 29 years.

NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Contingencies and Commitments

In the normal course of its activities, the University is a party to various legal actions. The University intends to vigorously defend itself against any and all claims and is of the opinion that the outcome of current legal actions will not have a material effect on the University's financial position.

The University participates in the Michigan Universities Self-Insurance Corporation ("MUSIC"), which provides indemnity to members against comprehensive general liability, errors and omissions, and property losses commonly covered by insurance. MUSIC also provides risk management and loss control services and programs. Loss coverages are structured on a three-layer basis with each member retaining a portion of its losses, MUSIC covering the second layer and commercial carriers covering the third. Comprehensive general liability coverage is provided on an occurrence basis. Errors and omissions and property coverage are provided on a claims-made basis.

The University is also self-insured for workers' compensation, unemployment compensation and substantially all employee health benefits. Liabilities for estimates of losses retained by the University under MUSIC and reserves for claims incurred but not reported under self-insurance programs have been established.

Under current accounting standards, the University is required to estimate expected pollution remediation outlays, when specified obligating events occur, and to determine whether these outlays should be accrued for as a liability. As a result, the University has accrued an abatement liability for approximately \$297,000 and \$426,000 for the years ended June 30, 2013 and 2012, respectively.

Note 8 – Issued but not adopted accounting pronouncements

The Governmental Accounting Standings Board (GASB) has issued the following Statements for future implementation:

Pensions: In June 2012, the GASB issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised note disclosures and required supplementary information (RSI). The university is currently evaluating the impact this standard will have on the financial statements when adopted. The total pension liability will be computed on a different basis than the current actuarial accrued liability and the method of allocating this liability to each participating employer has not yet been determined, so the precise impact is not known. However, if we approximate the liability based on the actuarial accrued liability and allocate based on covered payroll, this computes to a liability of \$68 million. The provisions of this Statement are effective for financial statements for the year ended June 30, 2015.

The University will continue to assess the impact of these new accounting pronouncements on the University's financial statements for adoption in fiscal 2015.

University Notes to Supplemental Schedules

Basis of Presentation:

The University utilizes four current and three noncurrent fund groupings for internal operating purposes, as follows:

Current Fund Groupings:

General Fund is used to account for general operating activities.

Designated Fund is used to account for funds designated by the University.

Auxiliary Activities Fund is used to account for services and facilities provided to students, faculty, staff, and the public and is managed to operate as a self-supporting activity.

Expendable Restricted Fund is used to account for funds restricted by donor or supporting agency.

Noncurrent Fund Groupings:

Student Loan Fund is used to account for transactions related to loans to students.

Plant Fund is used to account for transactions relating to investments in physical properties, indebtedness incurred in the financing thereof and reserves for maintenance, replacement, insurance, and debt service.

Agency Fund is used to account for amounts held in custody for students, University-related organizations, and others.

The eliminations on the Schedules of Revenues, Expenses, and Changes in Net Position by Fund represent the reclass of scholarship allowances as required by Governmental Accounting Standards Board Statement No. 35 - Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities.
