SHADES 3D PERSPECTIVES

CONCEPT

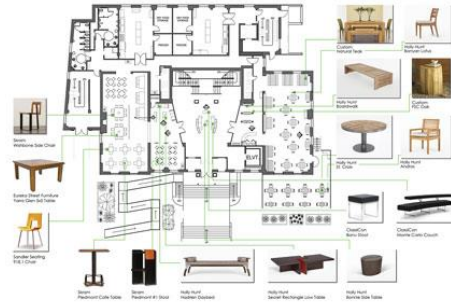

Ann Arbor, home to the University of Michigan, is a **progressive** city where growth is valued. Lane Hall will portray the vibrancy of this college town and serve as an **energy** hub for students in the surrounding area. Industrial features will integrate with the conservative structure creating a diverse facade. This forward thinking space is driven by **community** and overall **well-being**.

SNOW HALL C.A.P.S. OFFICES

Located on the third floor of Snow Hall, the CAPS offices will be comprised of three different layouts. Each layout allows for effective client-counselor communication. Displayed above are three unique sets of finishes. According to color theory research, blue is known to soothe and alleviate tension, yellow has antibacterial properties and green creates balance and harmony throughout the body. For these reasons, we chose blue, yellow and green for the color schemes in these rooms.
