

CaptiVoice

Assess, Accommodate and Accelerate

The Value of Capti

Students

Empower students to read anything accessibly
Improve reading fluency and comprehension

Teachers

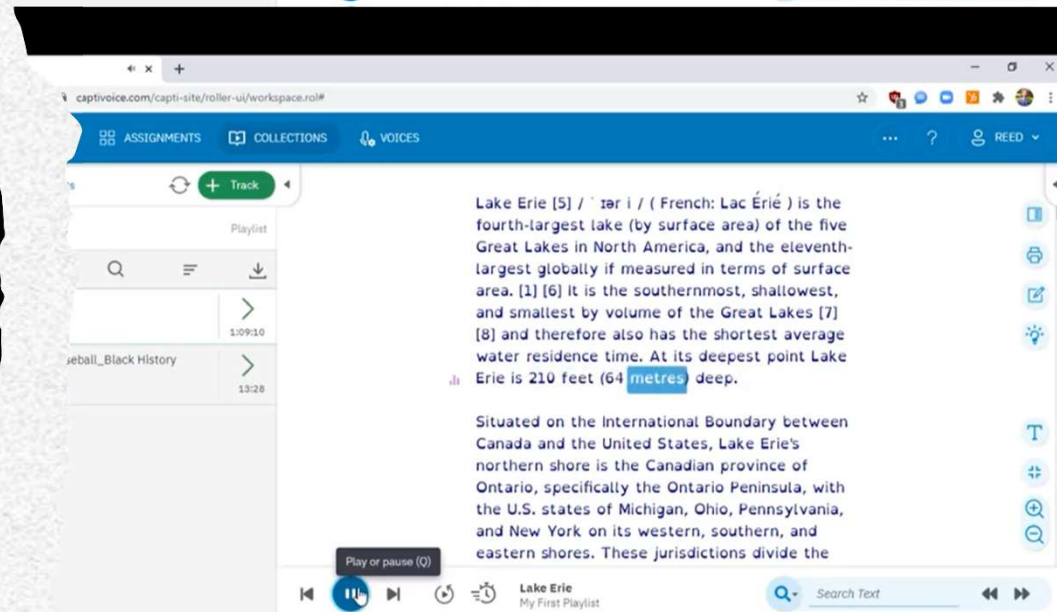

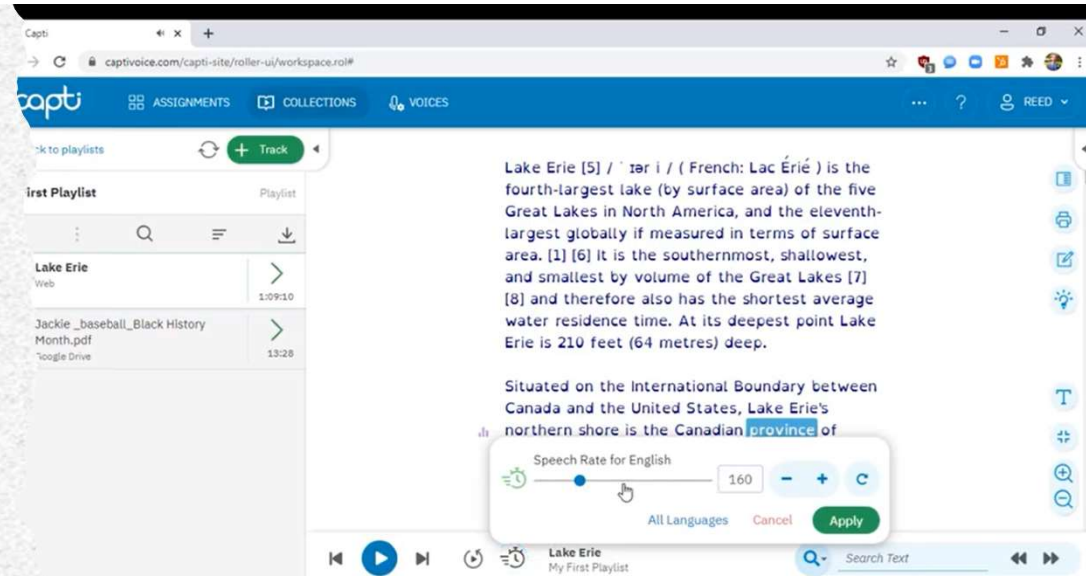

Assess, accommodate, & accelerate reading with **one** tool
Support instructional goals in remote and hybrid settings

Leadership

Ensure compliance with IEPs and accessibility laws
Reduce the number of apps you have to support

- Capti is a cutting-edge text-to-speech platform build by world leading researchers in computer accessibility.
- Capti allows readers of all abilities to increase their fluency and comprehension.
- It can read any document students or teachers upload. They can listen by following the cursor and can change the speed according to their needs and preferences.

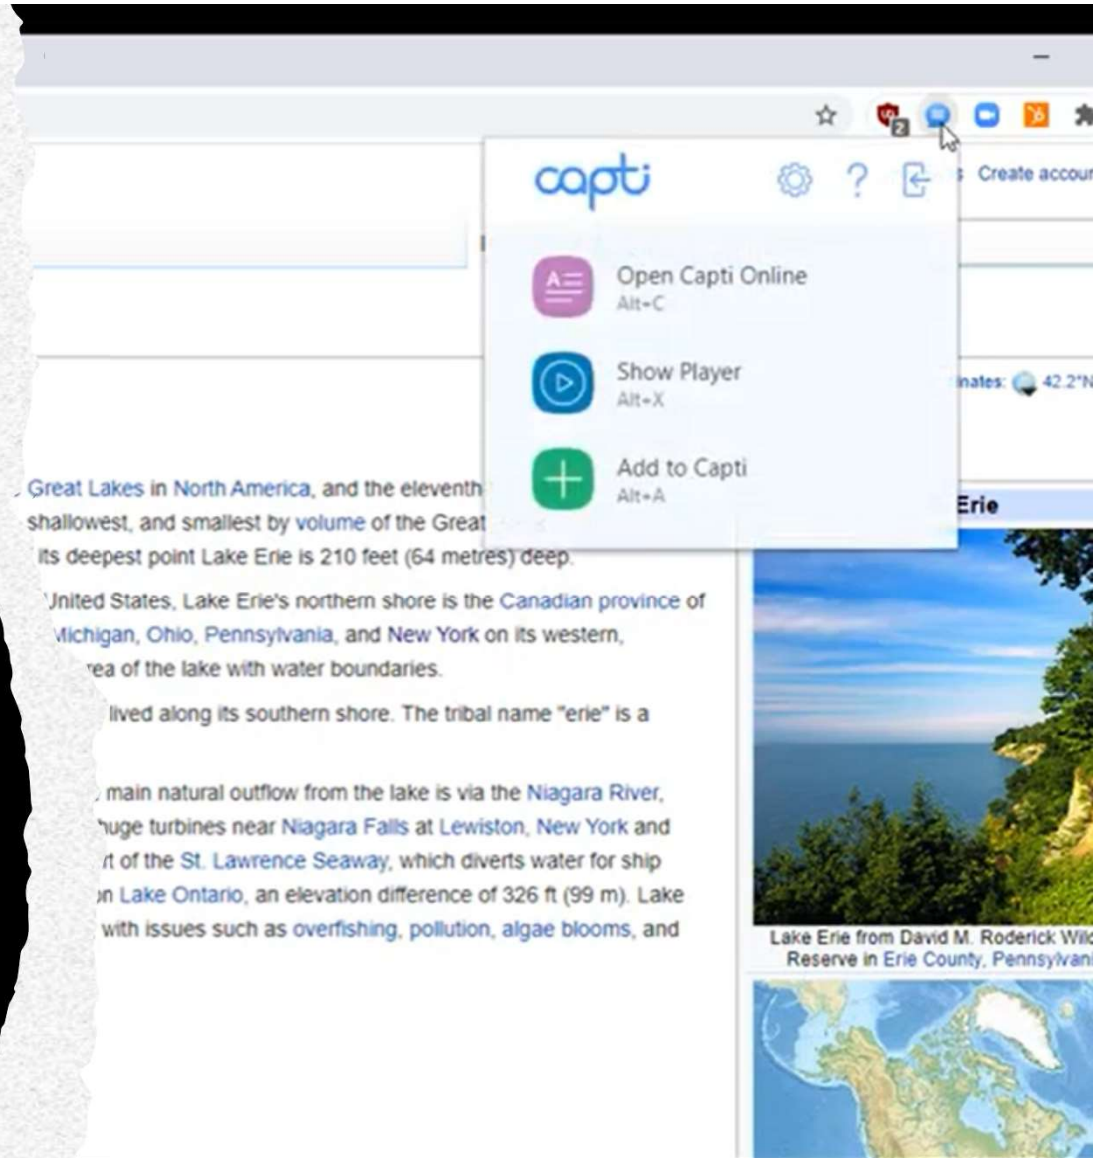

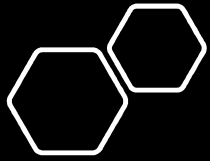

- Students can modify and adjust the text, they can also change the font, add notes and highlights and much more.
- Students can define words in context and add them to word list, increasing student comprehension and vocabulary.
- Students can choose 120 different voices from over 20 different languages available.

The screenshot displays the Capti application interface. At the top, there is a blue navigation bar with the Capti logo and menu items for ASSIGNMENTS, COLLECTIONS, and VOICES. Below this, a sidebar on the left shows a 'My First Playlist' containing two items: 'Lake Erie' (Web, 1:09:10) and 'Jackie _baseball_Black History Month.pdf' (Google Drive, 13:28). The main content area shows a text document with the following text: 'Lake Erie [5] / ˈ ɪər i / (French fourth-largest lake (by surface Great Lakes in North America, largest globally if measured in area. [1] [6] It is the southernn and smallest by volume of the [8] and therefore also has the water residence time. At its de Erie is 210 feet (64 metres) de Situated on the International B Canada and the United States, northern shore is the Canadian Ontario, specifically the Ontar the U.S. states of Michigan, O and New York on its western, eastern shores. These jurisdictions divide the'. A right-side toolbar is open, showing options for text formatting (B, W, L, C, O, G, D), highlighting (1-7), and cursor tracking (Track Cursor, Don't Track). At the bottom, a playback control bar shows the current time as 00:34 and the total duration as -1:08:36, along with a search bar and page navigation (PAGE 1).

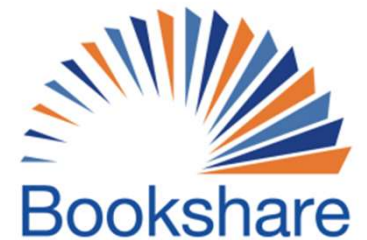

Capti chrome browser extension

- Students can add the Capti chrome browser extension and take it anywhere in their browsing.
- They can define words they do not understand by highlighting them.
- They can actively translate webpages in real time.
- Students can also organize their uploaded documents into playlist.
- Students can export their notes and documents and study them later.

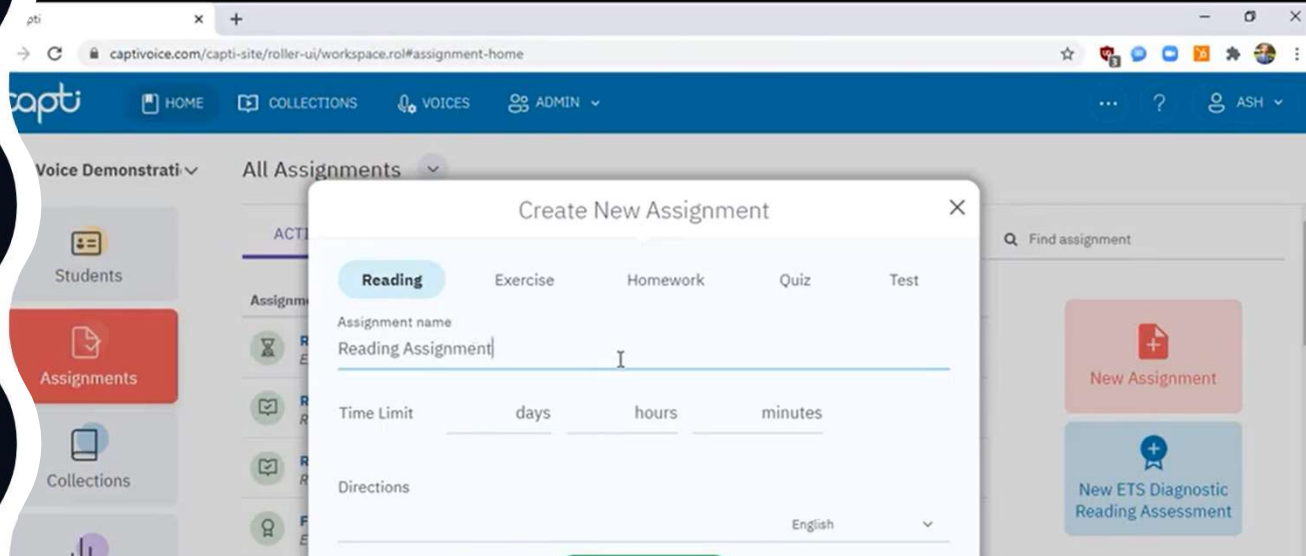

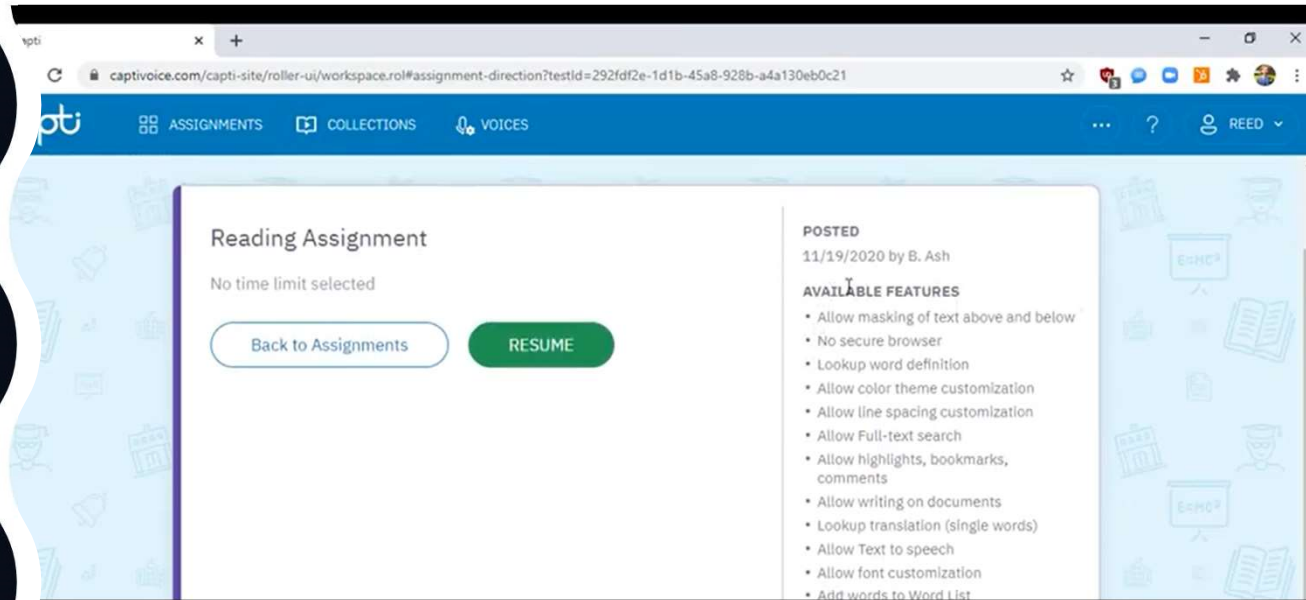

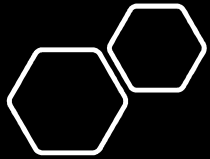

Capti can upload content from a vast amount of sources like Google drive, Canvas, Bookshare making it easy and accessible.

- Capti is even more powerful for teachers and educators to create and share an assignment.
- Can accommodate students during test.
- Monitor each in real time and provide individual accommodations to each student.

Integration

- Capti integrates with the school management system making sharing content each and efficient.
- It integrates with Google classroom, Canvas, Blackboard and Schoology.

Blackboard

Google Classroom

- 
- For remote setting.
 - Synchronous and Asynchronous class.
