

PSYCHOLOGY MAJOR

39 HOURS

Applied Behavior Analysis (ABA) concentration

This course concentration is designed to meet the minimum coursework requirements so that students can apply to sit for the BCaBA exam. However, this course sequence is not verified and must be reviewed by the Behavior Analyst Certification Board (BACB) on an individual basis in order to determine whether it covers the required content for the minimum number of instructional hours. Further, although this course sequence offers a course to accrue supervised field experience (i.e., PSY 374), enrollment in PSY 374 course for a semester will not provide all of the necessary hours needed to complete the Field Work Experience requirement and will need to accrue hours beyond this semester in order to be eligible to sit for the BCaBA exam.

Credit hours for each course are in parentheses next to course title. Indicate semester you complete each course on the line next to title.

_____ 101 General Psychology LECTURE (3) (prereq for all Psychology courses)
 AND
 _____ 103 General Psychology LAB (1) (not a prereq)
Does NOT need to be taken concurrently with PSY 101
