**Independent Auditor's Report**

To the Board of Regents of  
Eastern Michigan University

We have audited the accompanying balance sheet of Eastern Michigan University and its discretely presented component unit as of June 30, 2008 and June 30, 2007 and the related statement of revenue, expenses, and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. In addition, the audit of the basic financial statements was audited in accordance with Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Eastern Michigan University and its discretely presented component unit as of June 30, 2008 and June 30, 2007, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September xx, 2008 on our consideration of Eastern Michigan University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 2 to 10 are not a required part of these financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

## EASTERN MICHIGAN UNIVERSITY

### MANAGEMENT'S DISCUSSION AND ANALYSIS

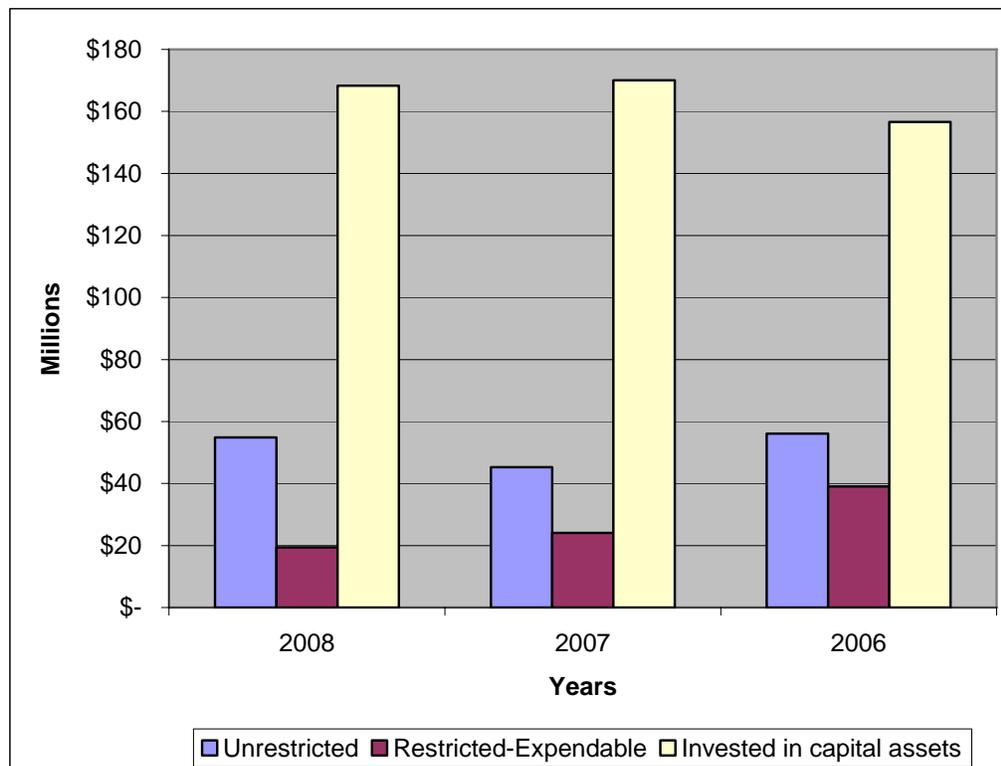

The following discussion and analysis of Eastern Michigan University's ("University") financial statements provides an overview of the University's financial activities for the year ended June 30, 2008, 2007 and 2006. Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with University management.

Eastern Michigan University offers an extraordinarily practical, supportive, accessible, affordable and quality learning and living environment. The University's distinct mix of comprehensive academic resources, strong community initiatives, focus on education first, and nationally recognized undergraduate research achievements set it apart.

Founded in historic Ypsilanti in 1849, the University occupies 880 acres on the main campus with 122 buildings. In addition, there are 7 convenient off-campus locations in Brighton, Detroit, Flint, Jackson, Livonia, Monroe, and Traverse City for a student body of almost 23,000 students.

#### Financial Highlights

The University's financial position remained strong at June 30, 2008, with assets of \$448 million and liabilities of \$205 million. Net assets increased \$3.0 million during the past fiscal year primarily due to \$7.1 million of 2007 State appropriations received in 2008. The University's holdings are mostly invested long-term duration assets. The following chart provides a graphical breakdown of net assets by category for the fiscal years ended June 30, 2008, 2007, and 2006.

**EASTERN MICHIGAN UNIVERSITY**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

The University has committed the unrestricted net assets to provide for indentified future needs. These needs include contractual obligations, debt service, student loans, capital outlay, insurance reserves, and academic programming needs.

The University's financial statements were prepared in accordance with criteria established by the Governmental Accounting Standards Board (GASB) for determining the various governmental organizations to be included in the reporting entity (GASB Statement No. 39). These criteria include significant operational or financial relationships. Based on the application of the criteria, the University has one component unit -- The Eastern Michigan University Foundation. The Foundation's statements are discretely presented as part of the University's reporting entity in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB).

**The Balance Sheet and the Statement Revenues, Expenses, and Changes in Net Assets**

The University's financial report includes three financial statements; the balance sheet, the statement of revenues, expenses, and changes in assets, and the statement of cash flows.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Following is a summary of the major components of the net assets and operating results of the University for the years ended June 30, 2008, 2007, and 2006:

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Operating Revenues**

Operating revenues include all transactions that result in the sales and/or receipts from goods and services such as tuition and fees, housing, and other auxiliary units. In addition, certain federal, state, and private grants are considered operating if they are not for capital purposes and are considered a contract for services.

Student tuition and fees revenue increased as a result of the Board of Regents raising the rates by 8 percent for resident undergraduate and 9 percent for nonresident master and doctoral undergraduate students.

The following is a graphic illustration of operating revenues by source:

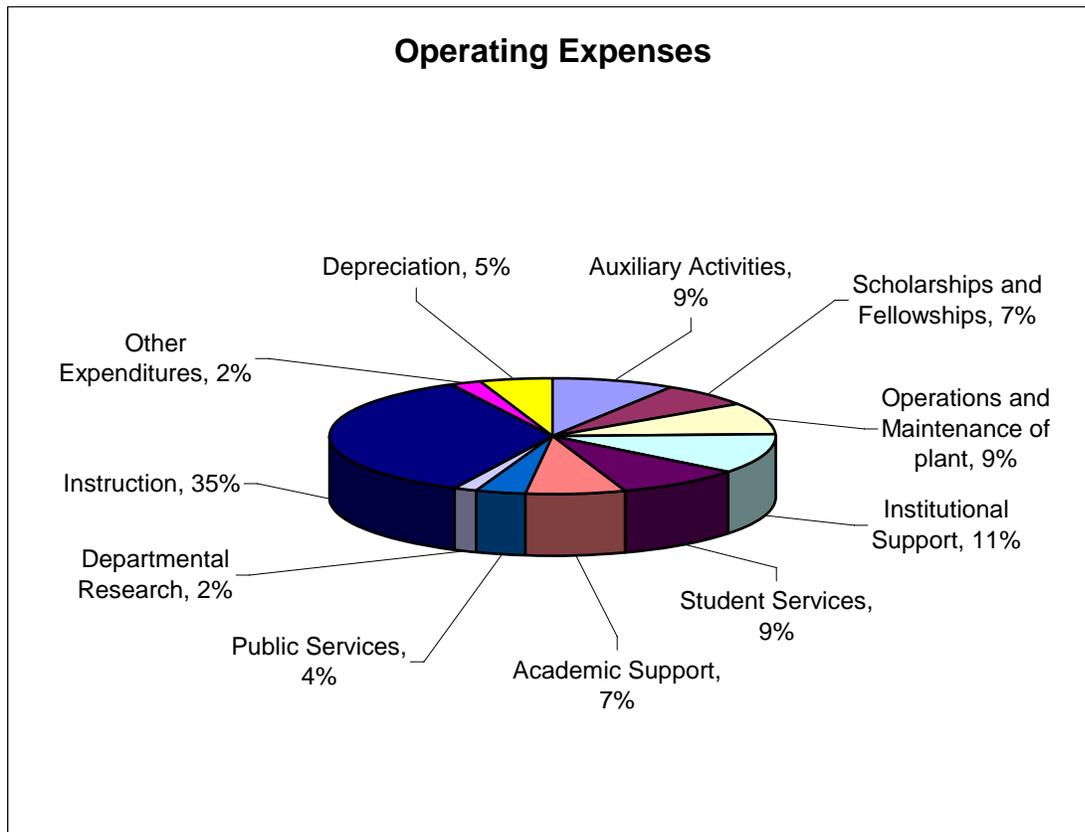

**EASTERN MICHIGAN UNIVERSITY**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Operating Expenses**

Operating expenses are all the costs necessary to perform and conduct the programs and primary purposes of the University. Operating expenses were significantly impacted by increases in the costs of compensation, utilities, student financial aid, library acquisitions, and academic programming.

The University is equally committed to providing financial support to students. The University has long sponsored its prestigious National Scholars program which attracts some of the brightest and most promising students.

The following is a graphic illustration of operating expenses by source:

**EASTERN MICHIGAN UNIVERSITY**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Nonoperating Revenues**

Nonoperating revenues are all revenue sources that are primarily non-exchange in nature. They would consist primarily of state appropriations, pell grant reimbursements, investment income (including realized and unrealized gains and losses), and restricted development funds that do not require any services to be performed.

Nonoperating revenue was significantly impacted by the following factors:

- The state appropriation increased approximately 23 percent from the prior year, or \$15.7 million. The state appropriation for fiscal year 2007 had decreased 10 percent, or \$7.6 million from the prior year, and for fiscal year 2006, it had decreased \$2.3 million, or 3 percent. Approximately \$7 million from the 2007 allocation was remitted to the University in 2008 and recorded as revenue.
- Pell grants increased by \$2.7 million to \$14.8 million in 2008.
- Primarily due to market conditions and spending on capital projects, investment income decreased approximately \$757,000 in 2008.

**Other Revenues**

Other revenues consist of items that are typically nonrecurring, extraordinary, or unusual to the University. Examples would be capital gifts, capital appropriations from the state or federal government, and transfers from related entities. Capital gifts amounted to \$0.1 million in 2008, \$0.1 million in 2007, and \$0.2 million in 2006.

**Statement of Cash Flow**

Another way to assess the financial health of the University is to look at the statement of cash flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The statement of cash flows also helps users assess:

- An entity's ability to generate future net cash flows
- Its ability to meet obligations as they come due
- Its needs for external financing

**Cash Flows for the Years Ended June 30 (in millions)**

	<u>2008</u>	<u>2007</u>	<u>2006</u>
<b>Cash Provided by (Used in):</b>			
Operating activities	\$ (74.3)	\$ (75.7)	\$ (61.0)
Noncapital financing activities	94.6	92.9	91.6

Investing activities	(46.6)	15.7	24.0
<b>Net Increase (Decrease) in Cash</b>	<b>(48.3)</b>	<b>(3.0)</b>	25.6
<b>Cash-Beginning of year</b>	<u>62.7</u>	<u>65.7</u>	<u>40.1</u>
<b>Cash-End of year</b>	<u><b>\$ 14.4</b></u>	<u><b>\$ 62.7</b></u>	<u><b>\$ 65.7</b></u>

**EASTERN MICHIGAN UNIVERSITY**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Cash and Investments**

Cash and long-term investments, collectively, increased by \$2.8 million, to \$83.3 million as of June 30, 2008. Approximately \$69 million in short-term securities were reclassified as long-term investments in 2008 due to market conditions. These securities are priced at par as of June 30, 2008.

The most significant components of cash flows provided from operating activities are tuition and fees, auxiliary activities, and grants, and contracts. Net cash used in operating activities was \$74.3 million. To offset this, the net cash provided from noncapital financing activities, which consisted primarily of state appropriations, was \$94.6 million. This is compared to net cash used in operating activities in the amount of \$75.7 million and \$61.0 million for the years ended June 30, 2007 and 2006, respectively. Net cash provided by non-capital financing activities was \$92.9 million and \$91.6 million for the years ended June 30, 2007 and 2006, respectively.

Cash used in capital and related financing activities amounted to \$22.0 million in 2008, primarily the result of capital additions during the year in the amount of \$20.4 million.

**Capital Assets**

At June 30, 2008, the University had \$314.7 million invested in capital assets, net of accumulated depreciation of \$237.1 million. Depreciation charges totaled \$15.8 million for the current fiscal year compared to \$17.0 million last year. The University completed renovations to McKenny Hall in 2008 along with improving campus security, classrooms, and auxiliary facilities.

In 2007, depreciable assets and accumulated depreciation of approximately \$19 million were retired. This represents fully-depreciated equipment purchased when the University capitalization threshold was \$500 and later \$1,000. Currently the threshold is \$5,000 for equipment.

**Debt**

At June 30, 2008, the University had \$146.4 million in obligations outstanding versus \$149.5 million in the previous year, a decrease of 2.1 percent. At June 30, 2007, the debt obligations decreased 3.1 percent, from a balance of \$154.3 million at June 30, 2006. The University issued \$125.8M of general revenue bonds in 2008 to refinance existing variable-rate debt issued in 2006 (\$84.8M) and 2001 (\$40.3M). The 2006 issuance was to finance the renovation of classroom buildings on campus and to refinance existing debt. All of the outstanding debt instruments are general revenue obligations of the University. In addition, principle payments of \$3.8 million were made.

The University's "Aaa/VMIG 1" credit rating by Moody's Investors Services was renewed in 2008. The "A" credit rating by Standard & Poor's was changed to "AAA/A-1+" in 2008. The highest achievable ratings are "Aaa" and "AAA", respectively. The University's capacity to meet its financial obligations is considered to be strong by the rating agency.

**EASTERN MICHIGAN UNIVERSITY**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**Factors that Will Affect the Future**

The University entered a new era that promises to move the University forward, beginning with a new president. Dr. Susan Martin took office as EMU's 22nd president July 7, 2008. Dr. Martin has spent more than 20 years in higher education, most recently as provost and vice-chancellor of academic affairs at the University of Michigan-Dearborn.

Among EMU's priorities for the 2008-09 academic year are increasing enrollment, improving academic facilities, and enhancing student life. A solid base of successes in 2007-08 will help lay the groundwork for new initiatives in those areas. They include:

- For the sixth straight year, Eastern Michigan University has received a "Best in the Midwest" designation in 2009 Best Colleges: Region by Region, published by the PrincetonReview.com. The teacher preparation program in the College of Education, meanwhile, was declared "Exemplary" by the Michigan Department of Education.
- Pray-Harrod, a seven-story classroom building that is the largest on campus and among the most heavily used in the state (10,000 students per day), sits near the top of a list of projects in the state's capital outlay budget. Plans call for a renovation/modernization of the building, which has had no major renovations since it opened in 1969.
- The Board of Regents selected Christman/Dumas to oversee the approximately \$90 million renovation/addition of the Mark Jefferson Science Complex – the largest self-funded construction project in University history.
- Four new degree programs have been added, including the nation's first special education master's degree for autism spectrum disorders and a doctoral program with a concentration in nursing education that will be the only program of its kind in the Midwest.
- The University is carrying out a comprehensive safety and security improvement plan. A \$3.9 million renovation of Hoyt Conference Center will place the Department of Safety in a more visible and modern location, and a university-wide text messaging alert service will notify students, faculty and staff if an emergency occurs on campus.

Acting in its July meeting, the Eastern Michigan University Board of Regents adopted a \$262.7 million General Fund operating budget for the 2008-2009 year as well as a tuition and fees rate increase.

The new budget reflects that the University's state appropriation for the 2008-2009 year is expected to be \$78.6 million. Tuition and fees for resident undergraduate students will increase 7.7 percent. Additional revenue from this rate increase, as well as enrollment changes, will result in a projected net revenue increase of \$7.2 million for the 2008-2009 year. Budgeted expenses have increased for compensation, utilities, financial aid, debt services, and library acquisitions.

Eastern Michigan University's successful future depends on the collective efforts of its stakeholders. These efforts build on a solid foundation of exceptional academic programs that prepare students for real-world experience.

## EASTERN MICHIGAN UNIVERSITY

### NOTES TO THE FINANCIAL STATEMENTS

#### **Note 1-Basis of Presentation and Significant Accounting Policies**

##### **Basis of Presentation**

The financial statements of Eastern Michigan University (the “University”) have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The University follows the “business-type” activities reporting requirements of GASB Statement No. 34.

GASB 34 establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following categories:

- **Invested in Capital Assets, Net of Related Debt-** Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement in those assets.
- **Restricted, expendable-** Net assets subject to externally imposed constraints that they may be maintained permanently by the University, or net assets whose use by the University is subject to externally imposed constraints that can be fulfilled by actions of the University pursuant to those constraints or that expire by the passage of time.
- **Unrestricted-** Net assets that are not subject to externally imposed constraints. Unrestricted net assets may be designed for specific purposes by action of management or the Board of Regents (the “Board”) or may otherwise be limited by contractual agreements with outside parties. The University has committed the unrestricted net assets to provide for identified future needs, such as debt service, contractual obligations, capital outlay, academic programming, and postemployment benefits.

These statements have also been prepared in accordance with criteria established by GASB for determining the various governmental organizations to be included in the reporting entity (GASB Statement No. 39). These Criteria include significant operational or financial relationships with the University. Based on application of the criteria, the University has one component unit.

##### **Summary of Significant Accounting Policies**

**Component Unit-** The University is an institution of higher education located in Ypsilanti, Michigan, and is considered to be a component unit of the State of Michigan (the “State”) because its Board of Regents is appointed by the governor of the state of Michigan. Accordingly, the University is included in the State’s financial statements as a discrete component unit. Transactions with the State of Michigan relate primarily to appropriations for operations, grants from various state agencies, and payments to state retirement programs for the benefit of University employees.

**Component Units of the University-** The Eastern Michigan University Foundation financial statements are discretely presented as part of the University’s reporting entity. These statements are prepared in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB). The officers of Eastern Michigan University Foundation include certain University administrative officials, but the University does not have controlling interest in the Foundation’s board. The Internal Revenue Service has determined that the Foundation is tax exempt under Section 501 (c) (3) of the Internal Revenue Code.

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS****(continued)**

The Eastern Michigan University Foundation exists for the sole purpose of soliciting, collecting, and investing donations for the benefit of Eastern Michigan University. A complete copy of the audited financial statements of Eastern Michigan University Foundation is available at the Foundation offices located near the campus of the University.

**Cash and Investments-** As a matter of cash management, the University invests substantially all of its cash in interest-bearing instruments. Investments are reported at fair value, based on quoted market prices, with changes in fair value reported as investment income in the statement of revenue, expenses, and changes in net assets. Cash equivalents consist of highly liquid investments with an original maturity of three months or less.

**Inventories-** Inventories consist primarily of supplies, food, pharmaceuticals, and bookstore items, and are stated at the lower of cost or market, with cost determined by the retail method.

**Capital Assets-** Capital assets are stated at cost if purchased or at appraised value at the date of the gift for donated property. Certain net assets have been designated to provide for significant repair and maintenance costs to residence facilities. Physical properties, with the exception of land, are depreciated on the straight-line method over the estimated useful service lives of the respective assets. Estimated service lives are as follows:

Land improvements	12 to 60 years
Leasehold improvements	12 to 20 years
Buildings	40 to 60 years
Equipment	5 to 10 years
Library holdings	5 to 10 years

**Bond Issuance Costs-** Bond issuance costs are amortized over the life of the related bonds using the straight-line method.

**Unearned fees and deposits** - primarily include deferred tuition and fee revenue for future semesters, exclusivity contract deferred revenue, and agency fund balances held in custody for others. Retirement benefit costs are funded as accrued.

**Accrued compensated absences** – comprised of the portion of unused sick leave accrued as of June 30 but not expected to be paid within one year. The portion of sick leave expected to be paid within one year and all accrued vacation leave are included in accrued payroll, taxes, and fringe benefits. The current portions of accrued sick leave and vacation leave were approximately \$400,000 and \$3,200,000 as of June 30, 2008, respectively. The current portion of accrued sick leave and vacation leave were approximately \$400,000 and \$3,210,000 as of June 30, 2007, respectively.

**Restatements** – Net assets as of June 30, 2006 reflect a reclassification of \$10,796,240 from Restricted, Expendable Net Assets to a noncurrent liability. This represents the Federal portion of the revolving loan fund for students that would be payable to the US Department of Education if the Perkins program is discontinued.

Pell grant revenue is classified as nonoperating due its nonexchange nature. The amounts received for 2008, 2007 and 2006 are \$14.8 million, \$12.1 million, and \$11.6 million, respectively.

**EASTERN MICHIGAN UNIVERSITY**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**(continued)**

**Auxiliary activities** - consist of the following as of June 30, 2008 and 2007:

	<u>2008</u>	<u>2007</u>
<u>Operating Revenues:</u>		
Auxiliary Activities, Gross	\$ 34,703,832	\$ 33,458,090
Less: Internal Sales	(1,049,145)	(2,056,814)

Less: Internal Sales	(1,049,145)	(2,056,814)
Less: Scholarship Allowances	(3,014,242)	(2,507,502)
Auxiliary Activities, Net	<u>\$ 26,270,587</u>	<u>\$ 28,123,934</u>

**Operating and Nonoperating revenues** – The University’s policy for defining operating activities as reported on the statement of revenues, expenses, and changes in net assets is to report those activities that generally result from exchange transactions, such as payments received for providing services and payments made for services or goods received. Nearly all the University’s expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues as defined by GASB Statement No. 34, including State appropriations and investment income. Restricted and unrestricted resources are spent and tracked at the discretion of the University’s department within the guidelines of donor restrictions, if any.

**Note 2 - Cash and Investments**

The University utilizes the pooled cash method of accounting for substantially all of its cash and cash equivalents. The University’s investment policy, as set forth by the Board of Regents, authorizes investment in securities of the U.S. Treasury and agencies, corporate bonds and notes, commercial paper, time savings deposits, Eurodollars and certain external mutual funds, separate managed funds and other pooled funds.

**Interest Rate Risk-** As a means of limiting its exposure to fair value losses arising from rising interest rates, the University's operating investment policy provides for a diversified portfolio comprised of short, intermediate-, and long-term investments. The investment policy does not specifically limit or restrict asset allocation except for the long-term investment pool. The asset allocation, as a percentage of the total market value of the long-term investment pool, is targeted as follows:

<u>Asset Category</u>	<u>Target</u>
Domestic equities	87%
International equities	13%

The University is also exposed to risk indirectly since its mutual fund investees hold investments such as futures, options, and collateralized mortgage obligations (generally referred to as "derivatives"). This risk is minimal.

**Credit Risk-** Investment policies for cash and investments as set forth by the Board of Regents shall be to preserve investment principal while deriving a reasonable return consistent with the prevailing market and economic conditions. The University is not currently restricted to a minimum rating by Moody's Investor Service or equivalent rating. At June 30, 2008 and 2007, the University's debt instruments (subject to fluctuations in interest rates) and related ratings consisted of the following:

**EASTERN MICHIGAN UNIVERSITY**  
**NOTES TO THE FINANCIAL STATEMENTS**

	<u>2008</u>		<u>2007</u>	
	<u>Market Value</u>	<u>NRSRO Rating</u>	<u>Market Value</u>	<u>NRSRO Rating</u>
<b>Bond mutual funds:</b>

<b>Total</b>	<u><u>\$ 69,001,980</u></u>		<u><u>\$ 70,280,747</u></u>	

The nationally recognized statistical rating organization (NRSRO) utilized was primarily Moody's Investors Services. The corporate bonds NRSRO rating is based on a weighted average of the individual investment ratings. In 2008 the corporate bonds have been classified as long-term investments due to market conditions.

**Custodial Credit Risk-** Custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the University will not be able to recover the value of its deposits or investments that are in the possession of an outside party. The University's cash investment policy does not limit the value of deposits or investments that may be held by an outside party. Investments in external investment pools and in open-ended mutual funds are not exposed to custodial credit risks because their existence is not evidenced by securities that exist in physical or book entry form. All cash and cash equivalents are held in the University's name as of June 30, 2008 and 2007. As of June 30, 2008, the banks reported balances in the disbursement accounts at \$12,675,430. Of these balances, \$200,000 was covered by federal depository insurance and \$12,475,430 was uninsured and uncollateralized. As of June 30, 2007, the banks reported balances in the disbursement accounts at \$12,499,116. Of these balances \$200,000 was covered by federal depository insurance and \$12,299,116 was uninsured and uncollateralized. The University does not require deposits to be insured or collateralized.

**Concentration of Credit Risk-** Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The University's investment policy provides that investments will be diversified within equity and fixed income securities so as to provide a balance that will enhance total return while avoiding undue risk concentrations in any single asset class or investment category. The diversification does not necessarily depend upon the number of industries or companies in a portfolio or their particular location, but rather upon the broad nature of such investments and of the factors that may influence them.

The following investments comprise more than 5% of the total investments portfolio as of June 30, 2008 and 2007:

**Foreign Currency Risk-** Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. At June 30, 2008 and 2007, the University had approximately \$64,423 and \$8,593,201, respectively, invested in mutual funds that have funds invested in various countries throughout the world and therefore, exposes the University to foreign currency risk indirectly. The University did not have any direct investments or deposits denominated in foreign currencies at June 30, 2008 and 2007.

In 2007, depreciable assets and accumulated depreciation of approximately \$19 million were retired. This represents fully-depreciated equipment purchased when the University capitalization threshold was \$500 and later \$1,000. Currently the capitalization threshold is \$5,000 for equipment.

The University has encumbrances of \$9,570,453 on various construction projects in progress as of June 30, 2008.

On August 29, 2001, the University entered into a twenty-six year interest rate swap agreement with a single counterparty for \$41,395,000 in connection with the issuance of variable rate 2001 Series General Revenue Bonds. The 2001 bonds were issued to refund and defease in-substance \$38,460,000 of the General Revenue Bonds of 1997. The intention of the 2001 swap was to effectively change the University's variable interest rate on the bonds to a synthetic fixed rate of 4.72 percent. The stated maturity date of the 2001 swap is June 1, 2027. At June 30, 2008, the total notional amount outstanding under the 2001 swap agreement was \$40,340,000. Bond issuance costs of \$361,027 net of accumulated amortization of \$361,027 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

On February 1, 2006, the University entered into a thirty year interest rate swap agreement with a single counterparty for \$85,680,000 in connection with the issuance of variable rate General Revenue Bonds, Series 2006. The 2006 bonds were issued to finance project costs and to refund and defease in-substance \$2,595,000 of General Revenue Bonds, Series 2000, \$10,415,000 of General Revenue Bonds, Series 2000B, \$4,635,000 of General Revenue Bonds, Series 2002B, and \$44,785,000 of General Revenue Bonds, Series 2003. The intention of the 2006 swap was to effectively change the University's variable interest rate on the bonds to a synthetic fixed rate of 3.317 percent. The stated maturity date of the 2006 swap is June 1, 2036. At June 30, 2008, the total notional amount outstanding under the 2006 swap agreement was \$84,785,000. Bond issuance costs of \$511,660 and \$6,450,709 formerly in escrow for

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS****(continued)**

future interest expenses net of accumulated amortization of \$511,660 and \$6,450,709 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

On April 10, 2008 the University issued \$125,795,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2008. The 2008 bonds were issued to refund the 2001 bonds and the 2006 bonds. The 2001 swap and the 2006 swap were reallocated by the University to the 2008 bonds. The debt service requirements to maturity for the 2008 bonds, as presented in this note, are based on the fixed rates payable under the 2001 swap and the 2006 swap. Bond issuance costs of \$670,000 net of accumulated amortization of \$0 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

If the University's credit rating falls below A3, and if the fair value of the 2001 swap exceeds (\$2,000,000), the University will be obliged to collateralize the fair value of the 2001 swap with a minimum transfer amount of \$100,000 with cash or U.S. governmental securities. Collateral would be posted with a third-party custodian. The University or the counterparty may terminate the 2001 swap if the other party fails to perform under the terms of the contract. If the 2001 swap is terminated, the variable rate bonds would no longer carry a synthetic rate and the University may be required to pay an amount equal to the 2001 swap's fair value, if it is negative.

Based on the 2001 swap agreement, the University owes interest calculated at a fixed rate of 4.72% to the counterparty to the swap. In return, the counterparty owes the University interest based on two indices: (1) the counterparty pays 68% of the London Interbank Offered Rate (LIBOR) rate on 60% of the notional amount; and (2) the counterparty pays the Securities Industry and Financial Markets Association (SIFMA) Index rate on 40% of the notional amount. Only the net difference in interest payments is actually exchanged with the counterparty. The University continues to pay interest to the bondholders at the variable rate provided by the 2008 bonds; however, during the term of the 2001 swap agreement, the University effectively pays a fixed rate on the debt. The University will be exposed to variable rates if the counterparty to the 2001 swap defaults or if the 2001 swap is terminated. The University can terminate the 2001 swap at its sole option, on any date. A termination of the 2001 swap agreement may also result in the University paying or receiving a termination payment. When the 2001 swap was initiated, the University received a payment from the counterparty of \$1,236,618.

The 2001 swap exposes the University to basis risk should the relationship between LIBOR and the variable interest rate on the 2008 bonds diverge, changing the effective synthetic rate of the bonds. As of June 30, 2008, the variable interest rate was 1.55 percent, whereas 68 percent of one-month LIBOR was 1.67 percent. The University is also subject to basis risk if the rate on the bonds diverges from the SIFMA Index. As of June 30, 2008, the SIFMA Index rate was 2.46%. As of June 30, 2008, the 2001 swap agreement had a mark to market fair value of approximately (\$5,219,416.18). The swap counterparty was rated Aaa and AAA by Moody's and Standard & Poor's, respectively, as of June 30, 2008.

Based on the 2006 swap agreement, the University owes interest calculated at a fixed rate of 3.317% to the counterparty to the 2006 swap. In return, the counterparty owes the University interest based on 62% of the London Interbank Offered Rate (LIBOR) plus 20 basis points. Only the net difference in interest payments is actually exchanged with the counterparty. The University continues to pay interest to the bondholders at the variable rate provided by the bonds; however, during the term of the 2006 swap agreement, the University effectively pays a fixed rate on the debt. The University will be exposed to variable rates if the counterparty to the 2006 swap defaults or if the swap is terminated. The University

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS****(continued)**

can terminate the 2006 swap at its sole option, on any date after June 1, 2013. A termination of the 2006 swap agreement may also result in the University paying or receiving a termination payment. When the 2006 swap was initiated, the University neither received a payment from nor made a payment to the counterparty.

The 2006 swap exposes the University to basis risk should the relationship between LIBOR and the variable interest rates on the bonds diverge, changing the effective synthetic rate of the bonds. As of June 30, 2008, the variable interest rate was 1.55%, whereas 62 percent of one-month LIBOR plus 20 basis points was 1.73%.

As of June 30, 2008, the 2006 swap agreement had a mark to market fair value of approximately (\$1,590,329.82). The 2006 swap counterparty was rated Aa3 and A+ by Moody's and Standard & Poor's, respectively, as of June 30, 2008.

If the University's credit rating falls below A3, and if the fair value of the 2006 swap exceeds (\$10,000,000), the University will be obliged to collateralize the fair value of the 2006 swap with a minimum transfer amount of \$100,000 with cash or U.S. governmental securities. Collateral would be posted with a third-party custodian. The University or the counterparty may terminate the 2006 swap if the other party fails to perform under the terms of the contract. If the 2006 swap is terminated, the variable rate bonds would no longer carry a synthetic rate and the University may be required to pay an amount equal to the 2006 swap's fair value, if it is negative.

Using rates as of June 30, 2008, debt service requirements of the variable rate debt associated with the 2001 swap agreement and the 2006 swap agreement and net swap payments, assuming current interest rates remain the same for their term, were as follows. As rates vary, variable rate bond interest payments and net swap payments will vary.

In February 2003, the University issued \$53,000,000 of General Revenue and Refunding Bonds, Series 2003A. The bonds are secured by general revenues of the University. Total proceeds of the debt issue, including the net original issue premium of \$1,071,869 were \$54,071,869. Bond proceeds of \$12,800,428 were used to refund General Revenue Bonds, Series 1993. The remaining proceeds were used to construct a new Student Center and renovate the existing McKenny Hall. The refunding resulted in an accounting gain of \$106,335 and an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$104,543. Bond issuance costs of \$241,385 net of accumulated amortization of \$54,815 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

In March 2002, the University issued \$21,100,000 of General Revenue Bonds, Series 2002A, to refund the \$20,615,000 1992 General Revenue Refunding Bonds. The bonds are secured by general revenues of the University. The refunding resulted in an accounting gain of \$662,298 and an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,159,108. Bond issuance costs of \$285,616 net of accumulated amortization of \$73,189 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

In March 2002, the University issued \$6,860,000 of General Revenue Bonds, Series 2002B, to fund capital additions and improvements. The bonds are secured by general revenues of the University. Bond issuance costs of \$185,556 net of accumulated amortization of \$50,365 at June 30, 2008, are included in capitalized bond expenses, net in the accompanying financial statements.

In November 2000, the University issued \$12,780,000 of General Revenue Bonds, Series 2000B, to fund new residence hall facilities. The bonds are secured by general revenues of the University. Bond issuance costs of \$63,145 net of accumulated amortization of \$19,177 at June 30, 2008 are included in capitalized bond expenses, net in the accompanying financial statements.

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS****(continued)**

In February 2000, the University issued \$9,555,000 of General Revenue Bonds, Series 2000 to partially defease in-substance the Series 1992 General Revenue Bonds and to fund various capital additions and improvements. The bonds are secured by general revenues of the University. Bond issuance costs of \$145,867 net of accumulated amortization of \$74,393 at June 30, 2008 are included in capitalized bond expenses, net in the accompanying financial statements.

In May 1992, the University issued \$45,125,000 of General Revenue Refunding Bonds together with \$6,405,583 of trustee held reserves to defease in-substance, \$46,696,000 of Housing and Student Fee Bonds outstanding at that time.

The trust account assets and the liability for the defeased bonds are not recorded as assets or liabilities in the financial statements of the University. At June 30, 2008 and 2007, the aggregate amount of outstanding principal on all bonds which have been defeased is \$61,280,370 and \$62,484,390 respectively.

Certain debt agreements require student fees to equal or exceed 200% of the related debt service. The University is in compliance with these covenants.

Principal and interest on long-term debt are payable from operating revenues, allocated student fees and the excess of revenues over expenditures of specific auxiliary activities. The obligations are generally callable. The future amounts of principal and interest payments required by the debt agreements are as follows:

	Principal	Interest	Total
2009	\$ 5,790,000	\$ 6,368,125	\$ 12,158,125

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS****(continued)****Note 6 - Retirement Benefits**

Through December 31, 1995, the University offered participation in one of two retirement plans for all qualified employees: the Michigan Public School Employees' Retirement System ("MPSERS") and the Teachers Insurance and Annuities Association - College Retirement Equities Fund ("TIAA-CREF"). As of January 1, 1996, the University no longer offered participation in MPSERS to new employees due to the Michigan Public Act 272 of 1995 which enabled the University to withdraw from MPSERS.

MPSERS is a cost sharing multiple employer noncontributory defined benefit retirement plan through the Michigan State Employees' Retirement System. The University's costs for the MPSERS plan include 1) contributions based on member payroll to fund normal pension costs, 2) contributions to fund a portion of the plan's unfunded actuarial accrued liability, and 3) contributions for retiree health insurance, at a fixed dollar amount determined annually by MPSERS.

A MPSERS credit of \$665,900 was issued to the University on June 6, 2007 due to a change in assumptions. This credit was used to reduce contributions to the plan in June, July, and August 2007. The cost of the MPSERS plan allocated to the University, all of which was contributed in the applicable year, was approximately \$5,080,000, \$5,870,000, and \$5,242,000 for the years ended June 30, 2008, 2007, and 2006, respectively. Further pension data audited by the Office of the Auditor General of the State of Michigan, for the Michigan State Employees' Retirement System is included in the State of Michigan's Comprehensive Annual Financial Report.

TIAA-CREF is a defined contribution retirement plan. Substantially all full-time employees of the University are eligible to participate in the TIAA-CREF plan. Employee benefits generally vest immediately. The University contributes a specified percentage of employee wages, as defined by the appropriate labor contract. For the years ended June 30, 2008, 2007, and 2006 the University contributed approximately \$10,725,000, \$10,114,000, and \$9,447,000, respectively, to the TIAA-CREF plan. The University has no liability beyond its own contribution under the TIAA-CREF plan.

The University provides termination benefits upon retirement resulting from unused sick days. The University calculates its sick pay liability in accordance with the provisions of GASB Statement No. 16, Accounting for Compensated Absences. The liability is approximately \$5,113,000 and \$4,440,000 as of June 30, 2008 and 2007, respectively. Approximately \$400,000 is included in accrued payroll, taxes, and fringe benefits for the years ended June 30, 2008 and 2007, respectively. The remaining portion is included in accrued compensated absences.

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS  
(continued)****Note 7 - Contingencies and Commitments**

In the normal course of its activities, the University is a party to various legal actions. The University intends to vigorously defend itself against any and all claims and is of the opinion that the outcome of current legal actions will not have a material effect on the University's financial position.

The University participates in the Michigan Universities Self-Insurance Corporation ("MUSIC"), which provides indemnity to members against comprehensive general liability, errors and omissions, and property losses commonly covered by insurance. MUSIC also provides risk management and loss control services and programs.

Loss coverages are structured on a three layer basis with each member retaining a portion of its losses, MUSIC covering the second layer and commercial carriers covering the third. Comprehensive general liability coverage is provided on an occurrence basis. Errors and omissions and property coverage are provided on a claims-made basis.

The University is also self-insured for workers' compensation, unemployment compensation and substantially all employee health benefits. Liabilities for estimates of losses retained by the University under MUSIC and reserves for claims incurred but not reported under self-insurance programs have been established.

**Note 8 - New Accounting Pronouncements**

The Governmental Accounting Standards Board (GASB) issued Statement No. 45, Accounting and Financial Reporting by Employers for Post employment Benefits Other Than Pensions, in 2004. .

The Governmental Accounting Standards Board (GASB) issued Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, in 2006.

Statement No. 49 requires estimation of expected pollution remediation outlays, when specified obligating events occur, and to determine whether these outlays should be accrued for as a liability. GASB 49 will be effective for the University for the year ending June 30, 2009. The University will continue to assess the impact of this new accounting pronouncement on the University's financial statements as more information becomes available.

The Governmental Accounting Standards Board (GASB) issued Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, in 2008.

**EASTERN MICHIGAN UNIVERSITY****NOTES TO THE FINANCIAL STATEMENTS  
(continued)**

Statement No. 53 is intended to improve the reporting of derivative instruments, specifically requiring measuring most derivative instruments at fair value in financial statements that are prepared using the accrual basis of accounting. The Statement also addresses hedge accounting requirements. The fair value of the derivative instrument will be reported on the balance sheet and the change in fair value will be reported in the statement of revenue, expenses and changes in net assets as investment gains or losses. Changes in fair value of hedging derivative instruments will be reported as deferred inflows or outflows in the statement of revenue, expenses and changes in net assets. The Statement is effective for financial statements for reporting periods beginning after June 15, 2009, therefore for the fiscal year ending June 30, 2010. The University will continue to assess the impact of this new accounting pronouncement on the University's financial statements as more information becomes available.

**Report of Independent Auditors on Supplemental Information**

To the Board of Regents of  
Eastern Michigan University

The report on our audit of the financial statements of Eastern Michigan University (the “University”) as of June 30, 2008 and 2007, and for the years then ended, appears on page 1 of this document. These audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary schedules accompanying the financial statements are not necessary for a fair presentation of the statements of net assets, and the related statements of revenues, expenses and changes in net assets and cash flows of the University in conformity with accounting principles generally accepted in the United States of America. The supplementary schedules are presented only for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

**Basis of Presentation:**

The University utilizes four current and three noncurrent fund groupings for internal operating purposes, as follows:

**Current Fund Groupings:**

General Fund is used to account for general operating activities.

Designated Fund is used to account for funds designated by University policy.

Auxiliary Activities Fund is used to account for services and facilities provided to students, faculty, staff and the public.

Expendable Restricted Fund is used to account for funds restricted by donor or supporting agency.

**Noncurrent Fund Groupings:**

Student Loan Fund is used to account for transactions related to loans to students.

Plant Fund is used to account for transactions relating to investments in physical properties, indebtedness incurred in the financing thereof and reserves for maintenance, replacement, insurance and debt service.

Agency Fund is used to account for amounts held in custody for students, University-related organizations and others.

The eliminations on the Schedules of Revenues, Expenses and Changes in Net Assets by Fund represent the reclass of scholarship allowances as required by Governmental Accounting Standards Board Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*.
